March 2018

# Intro

Welcome to the March edition - three months into 2018 already! In this issue read about local Warren Flaunty, who is now retiring after many years' service to the community. Read the tribute to journalist Pat Booth and learn about the changing country life. Heading along to the Kumeu A & P Show on 10th and 11th March from 8.30 to 5pm? A huge line-up of show favourites is planned, and expected to encourage more than 35,000 visitors over the two-day show. Entry is \$15 adults, \$10 seniors, \$5 for children 5-13 and parking is free. Show schedules will be available on the show's website [www.kumeushow.co.nz](http://www.kumeushow.co.nz) along with other information. Read about the tractor display and parade on page 4.

We have a Local Board update from Phelan Pirrie, update of State Highway 16 by Pete Sinton and the councillor's corner by Greg Sayers.

Six Week Ladies only challenge starting 24th March at Kumeu Gym, check out their website [www.kumeugym.co.nz](http://www.kumeugym.co.nz) or phone them on 09 412 8932, turn your "I cant's" in to "I can's". New health provider commencing a monthly clinic out of Waimauku Doctor - Amber from Foot Care clinic, will be available every 3rd Wednesday of the month from 10am to 3pm, call her on 021 107 0512.

Hallertau Brewery has teamed up with Muriwai Maori Bay Board Riders to create a new brew called the Single Fin XPA, available in March from Hallertau Brewery, ideally suited to a post surf session. Check out the Herbalist's recipe for their Hearty Larger Muffins, or The Source Bulk Food's espresso nice cream recipe. GG's Wood Fired Pizza new owners Scott & Abby Limbrick use only high quality local and imported salamis and meats, quality New Zealand cheese and veg, they also sell dough balls or precooked bases to make your own pizzas at home. Call them on 09 412 5060.

Cat show at the Kumeu Community Centre on Sunday 4th March from 10am to 3pm, \$4 per adult and \$2 for Children, showcasing specialist breeds of; Siamese, Oriental Shorthair, British Shorthair, Devon and Cornish Rexes and Tonkinese cats, cash only. Read about the dangers and what to look out for of 1080 poisoning for domesticated cats and dogs. Kanika Park cat retreat specialise in giving your pet the best experience, keeping them relaxed, leaving you with complete peace of mind, phone 09 411 5326 or find them on Facebook.

Autumn gardening tips, top roof maintenance tips, finding storage spaces at home and much more information spread over our property news and advice and home and garden section. Something for everyone in this month's issue.

As always, stay safe, be kind,  
Sarah  
Editor.

# PEOPLE & PLACES

## WARREN'S WINDING DOWN — A LITTLE

Stories by Geoff Dobson.

Warren Flaunty retires from pharmacy work this month after 51 years in the profession. But there's plenty to keep the long-time Taupaki resident busy. He's still involved with local boards, ratepayer groups, health related matters and more.

Retirement is hardly the name for it. In fact, Warren intends going tornado chasing in the USA with son Chris during May. Perhaps more in keeping with retirement is Warren's interest in bowls, playing at Hobsonville and Riverhead. He took up the sport in 2002 after selling his Massey pharmacy business, which he established in March 1967.

Pharmaceutical pioneer the late Sir Graeme Douglas had hoped to move in, but the shop became vacant, so Warren jumped at the chance.

Warren studied for his profession while growing up in Lower Hutt, doing a two-year diploma course and a two-year internship.

He opened the Massey pharmacy the day he qualified, aged 22, moving to West Auckland to be with Annetta – the pair marry-

ing the same year. Annetta and her father even did the Massey pharmacy shop fittings, friends pitching in to help.

There was little in the area then, Massey being still rural with gravel roads and few shops until the Duck brothers built their hardware store and several other shops, including the earlier pharmacy.

"I had a hitching rail for horses, and tractors often pulled up outside too," Warren recalls.

He bought a few other properties around the area.

One purchase included a double section on which Pioneer Developments, the firm run by Drew Watson which also built the Kumeu Village, established about five shops including a new Massey pharmacy on the current Don Buck Rd site.

Warren opened there in 1987 and had generally medical and other health related facilities around him.

After selling up at Massey, Warren has continued at the Westgate Pharmacy on Fridays and has a stake in several other area pharmacies.

In the early days of his practice, Warren was keen to become involved with the community. He joined the Massey Birdwood Settlers Association ratepayer group, of which he has been a member 50 years.

He ventured into local body politics around 1977, successfully standing for the then Waitemata City Council.

Coincidentally, Warren had played rugby for a Massey second grade team around 1968 with Tim Shadbolt, who went on to become Waitemata City mayor.

In another related story, Warren broke his arm while playing rugby, so took up refereeing for 20 years, firstly with the Auckland union then for North Harbour.

He was elected to the Waitakere Licensing Trust in 1986, and has been there ever since. "I became involved because I was interested in the trading side.

"People complain they can't get liquor in their supermarkets in the trust area, but we formed a model which should have

Come and join us at Nature's Explorers Kindergarten - the best kindy ever!

09 412 8800

been used throughout New Zealand because the community dictates the number of outlets."

Not only that, the trust provides a substantial slice of its profits to community organisations.

As an example of how the local trust has regulated outlets, Warren points to the fact that off-premise licenses moved from 40 to 41 in 10 years compared with Manukau going from 71 to 380 plus, the off-premises also including wineries.

Warren has maintained his local body involvement throughout. He was elected to the Rodney Local Board (which included Taupaki) in 2010, at the same time successfully gaining positions on the Upper Harbour and Henderson-Massey boards. "I stood for all three because Waitakere City had become split and many of my supporters were in each area."

Warren blames a few "disenchanted candidates" for helping get what became known as "the Flaunty Bill" through Parliament to limit the number of local boards a person could represent. "You had to declare on your nomination form which area you would represent if successful in standing for more than one.

"It was claimed that I had a conflict of interest, but I believe I helped in getting the boards to work together because I had knowledge of what was happening in each."

It essentially forced Warren to step down from the Rodney Local Board at the last elections, remaining in the Henderson-Massey Local Board.

He often attended Kumeu-Huapai Residents and Ratepayers Association meetings and others while serving Rodney, and has remained a member of the Taupaki Residents and Ratepayers Association.

He's also been active in the Waitemata District Health Board since 2001, and was on the West Auckland Hospice board for 15 years.

Warren became heavily involved in palliative care, introducing the Graseby pump to Auckland and New Zealand, a device which administers a cocktail of drugs over 24 hours to terminally ill people to help alleviate pain. He was named runner-up in the Royal Pharmaceutical Society awards for this. His passion in this field led to him serving the community 24 hours a day for the past 25 years.

He was in the Jaycees service organisation for more than 10 years too.

While at the pharmacy Warren also provided a swimming pool water analysis and care service, even having his own one-hour NewsTalk ZB programme about it for many years.

"The phone would be running red hot afterwards."

It's hardly surprising, then, that Warren should receive a Queen's Service Medal in 2002 for services to the community.

If he decides to give up some of his local body service in coming years, perhaps Warren will devote more of his time to the Taupaki farm and their four grandchildren, who love the open spaces.

One grandson is doing well in tennis, often practising on the

farm's tennis courts.

After living in Massey for 12 years, Warren won a Building Society ballot that enabled the couple to buy the then 24-hectare farm on Red Hills Rd. "It was half in gorse," he recalls. Over the years the Flauntys have added neighbouring properties, recently acquiring land intended for a wastewater treatment plant bordering Amreins Rd, so they now have nearly 130ha.

The farm is used mainly for beef stock and was, until fairly recently, a Belgian Blue cattle stud.

Chris and Warren have an interest in horses as well, which probably developed when horse owners used to arrive at the Massey pharmacy seeking medication for their animals.

Warren got a trainer's licence and bought a few horses and joined owner syndicates.

The first to do him proud was pacer Heidette, which won eight races –under the guidance of well-known driver Tony Herlihy who was still at school.

Changing to gallopers in 2016, Warren became involved with the Te Akau Racing Stables and Zambezi Warrior which won several races and performed well in last year's Brisbane Cup.

Chris has a share in a syndicate whose horse Avantage beat Te Akau Racing stablemate Al Hasa, in which Warren has a stake, at the Karaka Million at Ellerslie on January 26.

So at 74 there's little chance of Warren putting his feet up just yet. "Life's a challenge," he says.

## 2018 KUMEU SHOW TRACTOR DISPLAY & PARADE

Everyone associated with this year's Kumeu A & P Show (March 10th and 11th) is hoping for much better weather than last year, although the tractor parade did take place on the partially flooded showgrounds.

A turnout of 30 – 40 Classic, Vintage and some modern tractors and machinery for the 2 days, and there will be the usual parade and commentary at midday on Sunday.

Two special attractions that are planned to appear are Murray Weimers (Waiuku) 1950 German Lanz Bulldog and his mid-1950's Field Marshall that each have large capacity single cylinder engines. The Lanz has a "hot bulb" engine that requires the use of a blow torch for 10 mins before starting, and the Field Marshall can be started by hand cranking a very large flywheel or by using a shot-gun cartridge!

Weather permitting there will be regular demonstrations of haymaking, a tractor pull to demonstrate the Massey Ferguson pressure control system from the early 1970's and rides for the kids in a restored apple orchard trailer.

There will also be a trade stand by Discount Tractor Spares who can source a wide range of parts and accessories for classic and more modern tractors.

Any age or condition of tractors or implements is very welcome, so you are encouraged to get that old tractor out of the shed and down to the showgrounds on the Friday before the show.

## COUNTRY LIFE IS CHANGING

Wayne and Gabrielle Ryburn of Taupaki are seeing more subdivided lots advertised for sale around their organic blueberry farm.

It makes them wonder how much productive cropping land will continue to be lost as Auckland's development expands westward.

Parts of Taupaki are among areas changed to a "countryside living zone" under the Auckland unitary plan, allowing subdivision down to one-hectare using transferrable titles.

The Ryburns, pictured, began growing blueberries at their 4.55-hectare farm about 30 years ago, mainly because the peaty river flood plain soils are ideal for the crop.

They've seen vineyards and orchards move out their way from Henderson, particularly the now developed Lincoln Road area.

"We're losing too much good cropping land," Gabrielle says. "Many people seem unaware of the price that will be paid for the permanent loss of such food producing land."

"Higher food prices and less nutrient dense foods grown on poorer soils are two possible consequences already concerning those of us aware that we are what we eat."

Suitable soils and climate are becoming more difficult to find, and the Ryburns are not a lone voice on this issue.

Horticulture New Zealand wants a national food security policy. It says about 10,000 hectares of horticultural land was lost to urban development between 2001 and 2016.

A "perfect storm" is developing over New Zealand's supply of healthy food for both domestic consumption and export.

"There's concern about food security in this area, and climate change will make a difference to what can and can't be grown," Wayne says.

It's not only unseasonal weather, Wayne also believes climate change is promoting plant damaging pathogens such as the phytophthora fungus which damages plant roots.

Their blueberries have been hit more with phytophthora in recent years, requiring plant replacement and techniques such as mounding and selecting less vulnerable varieties to reduce plant loss.

About eight different blueberry varieties, including Climax, Delight and Centurion, all with unique flavours, are among the nearly 4000 bushes they have.

They still produce good quality and quantity of fruit, picking

about 2000kgs annually. Production will increase with new plantings and as other blueberry plants mature. Most of this goes to private customers and the rest is sold through farmers' markets and organic shops.

They're not totally reliant on their blueberries for income.

Wayne is a relieving secondary school teacher, specialising in geography and history. His interest in the area's history led to the production of his sold-out book *Tall Spars Steamers and Gum: A History of the Kaipara from Early European Settlement, 1854-1947*. A re-edited version with more information is now planned.

Gabrielle is involved in teaching art.

The award-winning painter specialises in commission portraits, large scale botanical and still life works, mainly oils and pastels. Gabrielle teaches adult students at The Studio, Corban's Estate Art Centre, in Henderson on Wednesday mornings and has been involved in a programme helping people overcome disabilities such as strokes, through learning to draw and paint.

"I teach people to not only enjoy art but gain a new perspective on life," she says.

Through art people can develop a deeper awareness of their surroundings, Gabrielle says.

A painting titled *Glorious*, exploring the interdependence of light and dark in depicting clematis flowers, was among two works selected for The New Zealand Painting and Printmaking Awards in 2016, later also winning the Hetty Boere Nature Theme Award.

Contact Gabrielle on [gdrdesign@gmail.com](mailto:gdrdesign@gmail.com), 0212 288 771 or 09 412 9255 for more information.

## TRIBUTE TO JOURNALIST PAT BOOTH

Tributes have poured in for crusading journalist Pat Booth who died aged 88 at the Kumeu Village Rest Home on January 31.

A well respected investigative reporter, Pat's funeral service at the Morrison Funeral Home in Henderson was attended by more than 150 people.

Among them was Arthur Allan Thomas, the man Pat campaigned to pardon after a miscarriage of justice following the murder of farming couple Harvey and Jeannette Crewe in Pukekawa in 1970.

Media people comprised many of the funeral goers, the likes of Phil Gifford, Ian Sinclair, Geoff Chapple and Gavin Ellis among those paying their respects.

Gavin spoke about \$30,000 price put on Pat's life while leading Auckland Star investigations into the "Mr Asia" drug syndicate, also in the 1970s.

He says this was an example of Pat's perseverance, and that Pat was told on several occasions to drop investigations relating to the Arthur Allan Thomas case.

"He was journalist who wanted to see justice done," Gavin says. Former Suburban Newspapers Auckland investigative team member in the early 1990s, Yvonne Martin, recalls Pat as team leader relating his "war stories". She says he was unfazed by confrontation when some in Auckland's Asian community took offence to the Pat-led "Asian Invasion" story series about Asians settling into the city.

Geoff Dobson also worked on the investigative team. Yvonne later frequently talked with Pat in the Kumeu rest home while visiting her father.

She recalls Pat talked to a men's group meeting there about the Arthur Allan Thomas investigations. "No-one slept through that one."

Yvonne says Pat liked intellectual challenge, which "kept him going when his body started to let him down". He never lost his sense of humour, she says. The family thanks rest home staff for their care of Pat, some past and present staff attending the funeral.

Born in Levin in 1929, Pat grew up in Hawera and first worked as a reporter for the Hawera Star, starting in 1949. A year later he was called up to the Auckland Star where he spent nearly 40 years, doing much of his crusading work there. He also wrote many books, from "The All Blacks' Book for Boys" in 1960 which featured Don Clarke, dubbed "The Boot".

He wrote many more books, including "Trial by Ambush" during the Arthur Allan Thomas campaign, and one on the Mr Asia investigations, "The Mr Asia File: The Life and Death of Marty Johnstone". Included was a biography on Sir Edmund Hillary titled "Edmund Hillary: The Life of a Legend" and his memoirs "Deadline".

Pat received the Order of the British Empire (OBE) for services to journalism in 1981.

While at the Kumeu rest home, Pat finished a 10-volume set of Pacific war stories based on Japan's involvement titled "Hirohito's War".

This featured in the Kumeu Courier August 2016 edition, and included a photo of Pat with nurse Helen Howitt who painted Pat with Japanese war flag. Helen read the Lord's Prayer at his funeral.

Pat had a keen interest in Japanese culture, repatriating Japanese swords, flags and other war items and practising martial arts such as kendo and aikido.

After serving as Suburban Newspapers' editor-in-chief, Pat kept writing for Fairfax in his regular "Off Pat" column until the age of 85. He served in local politics, including the Waitemata District Health Board, the Northland District Council and the Howick Community Board.

Pat is survived by six children from two marriages.

# SAFER COMMUNITIES

We are still in a restricted fire season so please seek a permit and check it's alright before you light. Some very good information is available on [www.checkitsalright.nz/](http://www.checkitsalright.nz/).

A number of call outs over the last month involving Kikuyu Grass and fire travelling under the green highlights how quickly fire can spread even after big downpours. If you have a fire, stay on-site, be vigilant and have a hose handy. Fire can travel fast and burn with a changing intensity that will shock you.

Well the dry summer has changed to a wet and humid summer. With a few ex-tropical cyclones in the mix. We were very lucky that Auckland did not get a direct hit with Cyclone Gita so let us have a look at what we should all do about being prepared.

Due to our location and environment, New Zealand faces many potential disasters. In some cases, such as a weather related or volcanic disaster, there may be time for a warning.

But an earthquake or a tsunami close to land could strike without warning.

All disasters have the potential to cause disruption, damage property and take lives. Therefore, it is vital that you prepare now.

I recommend you spend some time at the Civil Defence site [www.getthru.govt.nz/](http://www.getthru.govt.nz/)

This website will show you how to get ready, so you will get through.

# COMMUNITY NEWS

## KUMEU A&P SHOW

helloworld Hobsonville is having a stand at the Kumeu A&P show this year so come along and see us, have a chat and pick up some brochures. Also helping us at the show is Steve from Globus, Cosmos and Avalon and he will be there both days, Allianz Travel Insurance will be there Sunday afternoon and Sarah from Wild Earth Expedition and Small Ship Cruising is joining us Sunday morning. This is a great chance to have a chat with our team of Carolyn, Lesley, Hayley and Neil in an informal setting. We also have a competition for you to enter to win a fabulous cabin bag just by entering your name and email details. Our office phone number is 09 416 1799 or email [hobsonville@helloworld.co.nz](mailto:hobsonville@helloworld.co.nz).

## KAUKAPAKAPA VILLAGE MARKET

Sunday 18 March 8.30am to 1pm. Held on the 3rd Sunday of every month all year round, this lively village market hosts a wide selection of quality stalls with everything from locally hand-made crafts,

fresh fruit & vegetables to pre-loved treasures and collectibles.

Bring the kids along for free face painting. Enjoy a freshly made coffee while you check out the stalls or sit and relax with something tasty from the market cafe while you take in the entertaining atmosphere and live music. This month we have duo "Just Friends" Mike & Lynn performing a selection of easy listening classics.

There is always something fresh to experience with different musicians, entertainment and new stall holders joining the market each month - a great morning out for the family

For more information contact Sarah 027 483 1542 or email [sarah1@maxnet.co.nz](mailto:sarah1@maxnet.co.nz).

## HEY MUMS, SCHOOL'S BACK

School's back, which means routines and commitments and rushing. A lot of rushing, and maybe a bit of stressing. Oh who am I kidding, a decent amount of stressing. Amongst all the "busy-ness" however, catching a glimpse of my Stacking Heart rings is a timely reminder of what truly matters most. It's not deadlines, being late for after school activities, if dinner is late or bed time's broken. It's family. Pre-

cious family. Loving and supporting each other but most of all cherishing our time spent together.

At Precious Imprints Personalised Jewellery I custom make jewellery for you that is inspired by the people, places and things you love. This not only creates a tangible connection for you to these things, but also when times are hectic, acts as a reminder of matters most to you. Visit my website [www.preciousimprints.co.nz](http://www.preciousimprints.co.nz) and create your very own little "reminder" today.

## LOLLIPOPS KUMEU

Our purpose built, Reggio inspired centre in Kumeu offers our children ample opportunities to explore, make discoveries and build on their skills all contributing to their individual learning journey. We would love to invite you to visit our beautiful centre, meet our teachers and discuss our enrolment options.

Back to School Offer - Receive 4 weeks of child care are no cost! Discount applies to week 1, week 2, week 5 and week 6 of enrolled days. Enrolment must commence by 1st March 2018. \*T & C's apply.

Call us now to book a visit!! 09 412 8081 or email: [cm.kumeu@ledu.co.nz](mailto:cm.kumeu@ledu.co.nz).

## MARCH AT KUMEU ARTS CENTRE

March will be an exciting month in the gallery. Starting with an exhibition by

Inspiration. Encouragement Experience.

Davis Funerals will create a funeral ceremony with the style and service that celebrates the life of your loved one.

## THE MOBILE CAR SPECIALISTS

Found a few dents in your car's panels lately? Annoying right?! Well, we can remove them at a fraction of the cost of going to a panel shop. Plus, we manipulate the metal back into its original position which maintains the integrity of the panel. No fillers. No bog. No paint required.

Simply visit our website and fill in the quote form with a photo of your dent, and we'll get back to you with a price to fix it up.

Our other services include: High quality cut and polish paint correction. Yellow / foggy headlight restoration. Deep clear coat scratch removal. Ceramic coating paint protection. Signwriting removal. We are a fully mobile operation, meaning we come to you to make your life easier. Contact us on 0800 20 30 20 for a quote, or visit [www.TMCS.co.nz](http://www.TMCS.co.nz) to see our work and reviews.

## SENIORNET KUMEU INC.

Our first meeting of 2018 was held on Wednesday 7th February at St Chad's Church.

Prior to the start of the meeting members had an opportunity to mingle and catch up with old friends over tea and some really delicious cake provided by Bev Meredith.

The members were advised that the church will be closing in a few weeks for essential repairs and for the next few months Seniornet Kumeu will be meeting at the "Norwest Soccer Club" in the Huapai Domain, which is just a few minutes' walk from St Chad's.

There followed a presentation by Nigel Dempster and Brian Lacey on "The use of spreadsheets in the home or just for fun", which was followed by a lively question and answer session.

The meeting ended with another successful raffle organised by Judy Heck, with the raffle winners going home delighted with their prizes.

If you would like to join our friendly and informal club, just come along to our next meeting on March 7th at 10am at the Norwest Soccer Club Huapai (lots of parking space available) or contact: Brian Lacey on 022 183 1811 [brian@lacey.nz](mailto:brian@lacey.nz) or Nigel Dempster at [nigeldem@outlook.com](mailto:nigeldem@outlook.com). Membership is now open to people of all ages, who have an interest in meeting like-minded people and want to have fun learning how to get the most from their Computers, Smartphones, iPads, Samsung (or any other make of pad) etc.

## THE VINTAGE SHOP OPENS AGAIN

The Vintage Shop in the restored Pomona Hall next to the Kumeu Community Centre has opened its doors again for another year's trading and fund-raising for local community initiatives. The shop is run by Huapai-Kumeu Lions who are grateful to a band of volunteer ladies rostered to work there. Opening hours are Tuesday to Friday 10.30 to 3pm with Saturday openings on special occasions such as the Kumeu Show. A wide range of good quality vintage and retro stock is tastefully displayed and all at very reasonable marked prices.

Lions plough back profit from the shop into the community with donations going last year towards seating and fitness apparatus at the Huapai Domain.

Almost all stock at the shop is donated by people wanting to discard items which are no longer wanted or they are down-sizing with less space. Items are also donated by people managing a deceased estate and Lions' members are grateful for donations received in this way.

The shop is definitely worth a visit and anyone interested in helping out for a couple of hour every two weeks should call in and speak to one of the volunteers who enjoy this novel way of giving community service.

## MUM CAMP IS BACK

Know any mums who would love a weekend away to recharge, get inspired, nurtured and challenged all at the same time?

Mum Camp is like school camp for mums – great fun, but with top notch speakers, stunning food and yoga, grown up art tables and a bit of luxury here and there. It's happening at Houghton's Bush Camp – just like the last Mum Camp in 2015 – up to 50 mums will come together for a weekend to empower, re-inspire, nurture and challenge them as women and as mums. Better than a girls' weekend.

This year's celebrated speakers include Lisa McKimm who has 30 years' of experience in making parenting and relationships more joyful, and Eve Tonkin who is a renowned educator and expert in children's' creativity, and who will talk about how we are 'enough' and just what our children need.

Local food genius, the gorgeous Rosa Riana (who has worked at Ripe Café) will be working her magic again in the kitchen – she's coming all the way from Australia to be part of Mum Camp.

Just like last time, there'll be yoga, and time to sit down at crafting tables with other mums, plus other additions including, fingers crossed, a cooking class with a celebrity chef.

Put the weekend of 23-25th of March 2018 in your diary. Tickets are \$230.00 including two nights' accommodation, all meals and speakers. It's a completely not for profit event, run at cost, which is not something you see every day. Check out the Mum Camp Facebook page to see how wonderful the last Mum Camp

was [www.facebook.com/mumcamp](https://www.facebook.com/mumcamp) or email [mumcampmuriwai@gmail.com](mailto:mumcampmuriwai@gmail.com) for more information.

## KUMEU HOT ROD SHOW GEARS UP FOR 25TH

The dust has barely settled on this year's Kumeu Classic Car and Hot Rod Festival than planning has already begun for the its big 25th anniversary event next January. Something special is being considered for the milestone, but organisers Ken and Desma Galvin of Kumeu say it's early in the planning stages yet.

They will be starting to work through the processes this month. Meanwhile, the weather proved kinder for the January 20-21 show this time, after last year's washout. More than 30,000 people passed through the Kumeu Showgrounds' gates during the weekend event, some coming from as far afield as the USA and Britain. They came to soak up the sights and sounds of in excess of 3000 cars, including a jet car and dragster fire-ups. Attractions included performances both days by band Rock Steady, comprising former members of Foreigner and Bad Company.

East Bay Rods celebrated its 50th anniversary with a car display. Round five of the Jack Daniels National BBQ Championship proved a drawcard with about 20 teams competing in a cook-off. The top People's Choice award went to Steve and Tracey Fleetman's 1936 Ford Cabriolet. A "Brat" Mustang unveiled in a full body kit from Autocolour Matrix director Jason Hansen won the Best Street Machine and also the Best Presentation as part of the John Andrew Ford stand. Hansen is pictured, right, with

John Andrew Ford senior sales consultant Chris Robbins. A 1932 gold Roadster earned the Best Hot Rod trophy for Peter and Toni Farant, Other awards included Mitre 10 Westgate's Best Presentation, won by John Andrew Ford. People's Choice Best Bike went to Steve Hawkes' Real Fire Custom Soft-tail, and Murray Greg won Best Bike with 1929 Indian Scout and side car. Visit [www.kumeuhotrodshow.co.nz](http://www.kumeuhotrodshow.co.nz) for more information.

## WHENUAPAI GOLF CLUB

The Golfing season has kicked off for the Whenuapai Golf Club with Opening Day on the 3rd of February. Whenuapai Golf Club is an 18 hole course located on Kauri Road, Whenuapai, and for the plane spotters, the course itself is adjacent to an active airfield. We have a full season of golf planned that caters to all ages and abilities, we have coaching available for junior members, fun competitions and a truly friendly group of members. Tuesday mornings is ladies' day with players teeing off from 7.30am, a summer twilight competition is played on a Tuesday afternoon teeing off between 3.15 and 5.15pm, men play on Wednesdays and full club days on Saturdays. The club has teams playing in weekly vets' competitions, plus pennant and interclub competitions that are played all over the North harbour district. Casual players and new members are always welcome. If anyone wants to get in touch with the Whenuapai golf club please email [rnzaf.auckland@golf.co.nz](mailto:rnzaf.auckland@golf.co.nz).

## AUCKLAND LIBRARIES

Auckland Libraries is the largest library system in Australasia, and we have over a million items available for our members to borrow – this means we probably will have the title you are looking for! But what can you do if you can't find the title you want on Auckland Libraries' catalogue? First of all, you are always welcome to come and ask our friendly staff at Kumeu Library for assistance. We can help you search the catalogue, and find other titles on the same subject or theme. If you want a specific title by a specific author that we do not have, you also have some options.

You can ask Auckland Libraries to buy the book. We love to hear from our customers about what they want to read if we don't have it. If the title is current, in print and available to buy, we generally buy it. To make a request for purchase, go to our website ([www.aucklandlibraries.govt.nz](http://www.aucklandlibraries.govt.nz)) and scroll down to the bottom of the page where you will find "Ask us to buy it". Clicking that link will take you to a series of questions designed to

Tax Returns Payroll GST Returns

give our collections team the information they need to make a decision regarding purchase. If you include your membership information, you will automatically be on the hold list when the book is available.

If the book you are looking for is several years old, out of print and unavailable for purchase, Auckland Libraries can arrange an inter-loan, providing the book is held in another library in New Zealand or Australia – talk to us about this option. Please note that there are charges for inter-loans.

Follow us on Facebook ([www.facebook.com/kumeulibrary](http://www.facebook.com/kumeulibrary)) to keep up with all your local library's news and events.

## FLIPPIN' FUN HAS A CLASS TO SUIT YOU

With the holidays over and a long school term ahead, it's time to look after yourself. Flippin' Fun Trampoline Park has a variety of classes for personal improvement, up-skilling or just plain fun for you and your little ones.

Of course it's not just in normal bounce sessions when you can experience the benefits of trampolining. We have a range of skills and activity classes to suit you and your schedule. Check these out for Term 1.

Flip fit classes – if recent unpredictable weather has kept you from the beach, it's time reclaim that beach bod with the prospect of better weather ahead.

Flip classes – Fly with the best. For age 8 yrs+. Learn new tricks to impress your friends.

Private flip class – one-on-one instruction with a qualified instructor accelerates your child's skills learning.

Junior Flippers – a fundamental movements programme for kids aged 5 -7 yrs teaching skills core to many sports.

Little Flippers – a super fun toddler session for the 5 & under – no older kids allowed. For pricing and times be sure to check [www.flippinfun.co.nz](http://www.flippinfun.co.nz) or call us on 09 833 6880.

# IN BRIEF

## UPDATES:EVENTS

### KUMEU BLEND CHOIR

Singers wanted - rehearsals Monday evenings 7:30 – 9:00.

Our rehearsal venue is usually St Chad's Church, Huapai on Oraha Road (check with Margaret first).

After our success singing with the Concert Band last year we have been invited back again. That means we need more singers. All are welcome – basses, tenors, altos and sopranos as we look forward to another busy, exciting year. We are a friendly group and enjoy a wide variety of music. Previous choral experience and ability to read music is helpful.

Enquiries Margaret Lindsay on 021 042 8855 or 09 849 8070; email Margaret@lindsays.co.nz.

### HUAPAI-KUMEU LIONS SEEK NEW MEMBERS

Letters of invitation are currently being delivered to new residents of Huapai and Kumeu inviting them to a social evening and dinner being put on by the local Lions Club as an opportunity to meet with men who might like to join this world-wide community service organisation. Huapai-Kumeu Lions Club was established 49 years ago and over that period has been involved in many community-support activities, one of the first being the establishment of a volunteer Fire Brigade. Currently it is assisting with fitness projects at the Huapai Domain and for the past 12 years it has been able to donate funds to local schools and other groups result-

ing from the continuing success of the Book Fairs held twice a year in the Kumeu Community Centre. The construction of the centre itself in 1960 was largely done through Huapai-Kumeu Lions initiatives. The membership- social dinner event will be held at the Kumeu Community Centre beginning at 6.30 pm on Tuesday 20th March and a warm welcome will be accorded to anyone interested in finding out more about the Lions organisation. Enquiries or further information can be obtained by contacting Roger Davis 09 411 9973 or Gary Moss 09 412 7752.

### TENNIS CLUB 2018 MEMBERSHIP SPECIAL

Waimauku Tennis Club are offering a New Year adult package special to join the club in 2018. The special price of an adult membership is \$200 which is valid from now till the 30 of September 2018. (Note: Normal annual senior membership is \$255). Included in this special joining package is a six week adult tennis course known as Xpress Tennis which is a fast learning curve on the basics of tennis, and a court key to have access to the courts at any time at your convenience. Free entry to all club sessions, club championships and other club events (such as Wednesday morning senior club day or Wednesday evening twilight sessions (check out the website for all programmes), and a \$5 discount to Pump Tennis on Mondays at 6.30 pm, a fast paced cardio fitness work out, normally priced at \$15 - your price per session is only \$10. However, be in quick as we only have limited numbers

of the special joining package. Email: waimaukutennis@gmail.com to register NOW!

### SPANISH AND FRENCH LANGUAGE CLASSES IN KUMEU

Have you always wanted to learn French or Spanish but never got around to enrolling into that beginners' course? Or perhaps you want to equip your child with a passion for language at a young age. The good news is, no matter how old you are, you can discover your love for language at ABC Language Tuition.

The school is run by Patsy Sackx, who moved to NZ in 2000 with her husband and two daughters.

Patsy's been running her teaching business for more than 10 years and her enthusiasm for teaching is stronger than ever. ABC Language Tuition offers after school language classes in several primary schools in the area. Patsy and her language tutors have a passion for language, which they pass on to the students. ABC Language Tuition now offers French and Spanish adult classes.

The adult language classes are held in Kumeu during the day.

You can learn Spanish on Tuesday morning and French on a Wednesday morning. Enrol now: 027 490 4321 or email: info@abclanguage.co.nz.

## ANNA JEFFS PRIVATE INVESTIGATOR

Anna Jeffs is the Director of Fox Private Investigators Ltd. Fox Private Investigators Ltd is a highly professional and experienced team including ex NZ and UK Police and legal personnel, both with over 20 years of experience and ex-army personnel.

We offer expert investigation services including surveillance, infidelity investigations, criminal legal support, family and civil litigation support, locating missing persons and birth parents, document process serving, GPS vehicle tracking, computer and mobile phone forensics and bug sweeping. Please call Anna for confidential advice 021 036 8417 or visit [www.foxprivateinvestigators.co.nz](http://www.foxprivateinvestigators.co.nz). Licensed by The Ministry of Justice: 13-008198.

## MARKETING MEANS BUSINESS

Planning - tick. So now it's action stations! I like to work with a wall planner and transfer over the Tactics/Actions identified in the Marketing Plan. Once they are so highly visible there's little chance of 'forgetting' things and you can see the layers of your plans: campaigns, events, sales promotions etc. in the context of the whole year, quarter by quarter or season by season, whatever is most relevant to your business.

Keep your content 'on brand' in regard to tone, key words and overall messaging (images included). If you don't have a Web Editor call MOXY marketing now. Essentially media engagement is putting public relations (PR) at work. Within your Marketing Plan you will identify who these are and how/where to communicate with them e.g. bi-annual reports to investors, yearly plans to Auckland City Council, regular newsletter or tweets to existing client base...

For a monthly fee MOXY Marketing will professionally manage your requirements from designing campaign collateral pieces to writing content for your digital platforms. Ensure your ALL media (including social media) activities are updated weekly or monthly to stay fresh and relevant: promoting your business and building your brand. Make smart marketing work for you. Take action, call Andrea today 022 327 4758 or [www.moxymarketing.co.nz](http://www.moxymarketing.co.nz).

## NEW OWNER FOR NEW WORLD KUMEU

Changes and challenges have been the theme for Wade Brown over the past nine months.

Bucking the trend, he moved from the Bay of Plenty to Auckland; to Kumeu to be precise. As the new owner of New World Kumeu he brings passion and drive to lead his team to exceed customers' expectations.

February will see the launch of "Click and Collect" Shopping and an Online Shopping Delivery Service.

The car park has been fitted with lockers and designated carparks for the click and collect service. Customers will do their shopping online, choose an appropriate pick up time, and the products will be in the lockers for them to collect.

An electric van has been purchased for regular deliveries to Riverhead, Kumeu and Waimauku. We hope the delivery area will extend as far as Helensville and Muriwai.

The new services are supported with an iShop app that can be downloaded through [www.ishopnewworld.co.nz](http://www.ishopnewworld.co.nz) or the app store.

## SMASHING PROMOTIONS

Established 1993 and now celebrating 25 Years. Happy 25TH Birthday to us. It's been an awesome journey and onwards and upwards we go, join the party. ## NEWS & ADVICE

### MARKET REPORT

Let's not get ahead of ourselves, nor predict the future rise or demise of the local real estate market just yet.

Different economists and different polls have outlined a steady as she goes approach to real estate demand and prices seem to be more settled. A slow-down in new home sales and new home construction would indicate that there is a growing gap between what builders want to build and what the market is seeking to purchase. Banks are still restricting lending and placing increasing demands on home owners and investors. Banks are seeking a lower risk profile and an increased asset pool to balance their score cards. Most of the industry feedback at present is that the property market is in a stabilising phase with the looming reality of a slight lift in lending interest rates towards the end of the year. Which-ever way you cut the cake it is interesting times in balancing environments. Let's look at the sales for the month:

Coatesville Lifestyle \$7,600,000. Helensville Lifestyle \$454,000 to \$1,189,000. Helensville Residential \$850,000 to \$1,052,000. Parakai Residential \$485,000 to \$735,000. Huapai Residential \$965,000 to \$1,333,500. Kumeu Lifestyle \$1,150,000 to \$3,050,000. Muriwai Residential \$885,000. Riverhead Residential \$1,050,000 to \$1,540,000. Taupaki Lifestyle \$1,350,000. Waimauku Residential \$580,000 to \$1,155,000. Waimauku Lifestyle \$1,100,000 to \$1,815,000.

Upsizing or downsizing or liquidating, there are a number of things that will be important to you; a) the agent needs to

be experienced and highly qualified; b) the process must attract a volume of buyers; c) the advertising plan must attract the right buyers to view the property; and d) you must feel part of the journey and involved in the success of the sale. At Mike Pero Real Estate, we provide a logical and easy solution that delivers peace-of-mind to buyers and sellers considering a property change. For more information go to [www.grahammcityre.co.nz](http://www.grahammcityre.co.nz) or phone 0800 900 700. Mike Pero Real Estate Ltd Licensed REAA (2008).

### FIVE AREAS TO REVIEW... REGULARLY

I know we all live busy lives with endless demands on our time ...but it's important we regularly review areas of our financial lives.

At the end of the day if you don't, no one else will.

Below are five potential areas of review,

1) Have you updated the insurable value of your home, 90% of New Zealand home owner have not. It's your sole responsibility to specify the insurable value of your home. At present the majority of New Zealander's are under insured. There are some tools available that will assist you to calculate the insurable value. (Seek advice from a builder, architect, quantity surveyor, or insurance valuer. There are online tools as well)

2) Do you have a will, has it been updated recently? Do your beneficiaries know where it is? Dying without a will or one that is not up to date will complicate the transfer of your assets upon your death

to your loved ones. I can tell you from personal experience that not been able to locate the will adds a lot of additional stress at a time already highly charged with emotion. A simple will is not expensive to prepare - a quick phone call to your lawyer may save you a lot of grief.

3) If you lose your ability to earn an income through death, disability or accident, what is your Plan B? How will you pay the mortgage or feed the kids. Most people will insure their house but not their biggest asset - their income. For every house lost from fire, three are lost due to death of the owner, but 38 are lost through disability.

4) What is the structure of your current mortgage? Is your mortgage currently floating or fixed? Are you looking at selling? Make sure your loan will meet your short, median and long term goals.

5) You are now another year older and another year closer to retirement. Have you started to financially prepare for this? With an ageing population it may not be wise to solely rely on the Government to provide for you retirement income. As a benchmark, it is generally thought that most people in retirement need about 70% of the income they required before retirement. Your retirement saving plan needs to start today!

For further details feel free to contact Ivan on 09 427 5870 or 027 577 5995 or email [ivan.urlich@mikepero.co.nz](mailto:ivan.urlich@mikepero.co.nz).

Ivan Urlich is a registered financial adviser specialising in mortgages, his disclosure statement is available free of charge on request.

### APPOINTING A GUARDIAN IN YOUR WILL

You may name a person (over 20 years old) in your will to be a "testamentary guardian" of your children if you die while your children are under 18 years old. Appointing a guardian in your will has legal status under the Care of Children Act 2004. A testamentary guardian's role does not include the day to day care

of children, but allows them to make major decisions about how the children are brought up. The testamentary guardian would share guardianship with the children's other parent if they survive (and if that parent has guardianship), or with any other person named as a testamentary guardian. This is an area for legal advice. Once appointed, a guardian would need to apply to the Family Court for a parenting order if they needed the day to day care of the children (this is more common where there is no surviving parent, or a parent without guardianship rights).

25 Orahā Road, Kumeu, Auckland. PO Box 600 Kumeu, Auckland 0841. Phone 412 6000.

## TOP ROOF MAINTENANCE TIPS

The roof isn't like a well landscaped garden or a perfectly decorated interior that becomes our pride and joy. But our roof works for us day in and day out, protecting us and our belongings from the elements, so it's important that we take the time to give it the attention it deserves. We will never repeat it enough: with regular maintenance and repairs when needed, you'll be sure to get a long and happy life from your roof.

Inspect your roof on a regular basis. In late autumn look for leaves and other debris on the roof and in the gutters. It's also a good idea to inspect the roof after any storms with heavy winds.

Clean the gutters. Clean the gutters and downspouts in the late autumn after the trees have shed their leaves. Check for breaks or gaps in the seams and make certain that the brackets holding the gutters against the house are securely attached.

Check the flashings. Flashing is a prime target for leaks simply because it's covering a hole in the roof. Check the flashing around vents, exhaust pipes and chimneys. Make certain it isn't bent or punctured and that the sealant isn't dried out or loose.

Remove overhanging tree limbs. Trees that are growing too close to the house can be a hazard to your roof. There's not only the risk of broken limbs falling on the roof but if they overhang or rest on the shingles, they can abrade the protective stone coating over time.

Look for animal damage. Rats and birds will all make themselves at home on and under your roof if given the chance. If areas of the roof have been weakened by rot, it will provide an easy access to all sorts of small critters. They will only compound the existing damage, which could mean some pretty expensive repairs.

Check for signs of insects like termites. Soft rotten spots, shredded wood or sawdust and insect faeces are all signs of an infestation.

Walk around the house. By walking around the house from time to time, especially after any significant winds, you can check for pieces of broken shingles on the ground. Dry, brittle shingles can break easily and if you find bits and pieces on the ground it's important to have a closer look at the roof.

Inspect the attic. The underside of the roof is where you're most likely to spot leaks before they become too serious. Look in unfinished areas of the attic for streaks or staining. Look for signs where water may have trickled in around the chimney and vents. Also look for soft spots in the wood as well as indications of animals or insects.

Avoid walking on the roof. You can easily damage a roof by walking on it. No matter what material your roof is made of, it can be fragile. Asphalt shingles, slate or clay tiles can all crack or come loose from being stepped on.

Schedule a professional inspection. A roof specialist will know exactly where to look and can quickly assess your roof.

All of our replacements, restorations and repairs on homes and businesses in Auckland are backed with an exceptional 10 year workmanship guarantee, and manufacturer's warranties also apply on most materials of up to 30 years. Call us today on 0800 00 22 22 email roofingprecision@gmail.com for a free no obligation quote - we would love to hear from you.

## FINDING STORAGE SPACES AT HOME

About this time of year the garage is usually looking a bit of a mess as we scramble to get organised with our summer stuff still in use but being back at work and school leaving no time to put things away properly.

After our trips away this year we've simply unpacked the summer camping and water sport gear straight out of the car and up onto our ceiling storage racks. It's out of the way but easy to get to for the next trip.

The racks are great for busy lives. Give us a call and our local installers can get you sorted! 021 606 004 and [www.stealing-spaces.co.nz](http://www.stealing-spaces.co.nz).

## \$85 = EXPOSURE FOR A MONTH

Budgets are tight and advertising is often expensive, but it's nice to know that someone is making it easy and cost effective. For \$85 plus GST you can be exposed to over 22,000 locals for a whole month. That is only \$2.80 a day. For more information email our editor at [sarah-brightwell022@gmail.com](mailto:sarah-brightwell022@gmail.com).

## THE PERFECT LIFESTYLE PROPERTY

4 2 2

Asking Price \$1,298,000

### 87 Zanders Road, Waimauku Asking Price \$1,298,000

This is the most sought after lifestyle property, 1.9HA (5 acres approx.) nestled in a quite rural cul-de-sac in the Ararimu Valley, 10 mins from Kumeu or Waimauku villages. Spacious, Maddren four bedroom, two bathroom brick home with internal access to a large double garage. Large wooden deck accessed by two double bi-fold doors and a ranch slider provide great indoor - outdoor flow. A double bi-fold door opens onto a concrete courtyard, from the large kitchen / family room area. Land is easy to moderate contour and enjoys a pleasant rural outlook. The grounds are neatly laid out, featuring fruit trees and palms. Pasture is divided into 4 paddocks of improved pasture. The fencing is to a good standard. A small dam is at the bottom corner of the block.

## PICTURE THIS, NEW HOME ON 48 HECTARES - WAIMAUKU FRINGE

By Negotiation

### 1295 Old North Road, Waimauku By Negotiation

Elevated land, no power lines, rural outlook. Seldom found - an amazing rolling grazing land with bush glades, multiple house sites, and an uncompromised rural valley view. If you are searching for tranquillity and an environment to create your very own ponderosa, with a mixed compliment of around 24 hectares of grazing and the same in covenanted bush including tea tree. This could be your opportunity to consider gazing and honey making hobbys. The land meanders to a central stream with access on both sides through an established raceway so travel by foot or quadbike is fun and medium fitness. Likewise wild deer still roam the land as Wood Pigeon and Tui's swoop through this picture perfect landscape.

# RURAL NEWS

## RURAL/LIFESTYLE BLOCK & FARM SUPPLIES

Whether you have a weekend project underway, building and maintaining farm fencing/sheds or constructing your dream home, no job is too big or too small for the team at Western ITM in Kumeu. Our Kumeu store

stocks a comprehensive range of urban and farm fencing materials that can add so much value to your rural/lifestyle property. Fencing not only provides you and your animals security and privacy, it can also provide shelter from the elements. Just some of the vast range we carry in stock are listed here... Wire and Batten Fencing - Batten and wire fences usually consist of seven or eight wires, using 2.5mm hi-tensile. The posts can be number one or two, which relates to the diameter of the post. Posts are usually spaced at 4.5m with five battens per space. Post and Rail Fencing - Post and rail fencing is a popular option for lifestyle blocks and equestrian facilities, often used for driveways, road frontages and tree surrounds. Water Troughs - Our Western ITM Kumeu store carries rectangular and round troughs. These come complete with a built in covered ball float. Light weight, easy to handle and available in a variety of sizes. PurePine Shavings are dust free, dry, natural and hygienic and come in easy to handle (19kg) water resistant plastic bales. These shavings are ideal for domestic animal bedding, commercial stables and farms. Just \$26.00 incl GST per bale! Visit [westernitm.co.nz](http://westernitm.co.nz) today for a free online quotation or for further advice or information visit us instore today. Western ITM Kumeu - 154 Main Road, Kumeu. Phone 09 412 8148 - open 7 Days.

## AUTUMN PASTURE TIPS FOR LIFESTYLE CATTLE HERDS

Locally we have had good rain and pasture growth as we move towards autumn, a lot of pasture in the area is the best I have seen it in years. Having said that, we want our pasture to survive through winter. Take a close look at your pasture and see what's there and what has disappeared over the summer. For most of us, clover will be hard to find and so will ryegrass - it will still be there but it'll be brown and frizzled. You'll have to look carefully to find the green growing point at ground level from which new tillers will grow when it rains. Any long dead-looking brown grass will be Browntop which is an unproductive species and a sign of low fertility, so if your paddocks are all Browntop, it means you need fertiliser. Don't be fooled by all the dead litter on the paddocks, which makes it look as if there's some feed value present. It's a great source of fungal growth (for facial eczema) and after the first autumn rains it will be all gone in a few days leaving large areas of bare ground. This provides light and

space for ryegrass and clover but it will be many weeks before it will provide good feed. All rough growth on paddocks should be taken right off. If you have mature cattle, or can borrow some, make them work to clean it all off, especially tufts of cocksfoot. If this leaves a lot of dead rubbish, remove it as it's always a source of fungal growth. What the cattle won't eat, take off with a slash-er or weedeater. If you don't, fresh green regrowth will be slow. After this clean up, give the paddocks a light chain harrowing to spread dung pats. Slash off any beds of Californian thistles (just before it rains if possible) dead docks and ragwort and plan to treat them early next spring. Lack of early action means their seed will be with you for a long time. Old saying: 'One year's weeds is 40 years' seeds.' Research shows that cutting off thistle just before rain helps to kill them off. Don't shift the fence every time the cattle moo at you. Move it on what the pasture utilisation looks like. Make a stand-off area for cattle during wet periods in winter to avoid pugging. After an extended summer dry spell, you may have to consider some 'pasture renovation'. This can be expensive so seek professional help. Get a soil test done and seek advice on what fertiliser is needed. If you require any further information on caring for your property or would like to see where your property sits in the current market give me a call, Lyndsay Kerr 027 554 4240 your lifestyle property specialist. If I don't know the answer to a question I will know somebody who does.

## LIVESTOCK REPORT

Cattle are selling especially well at present, driven by great grass growth and rising schedules. With large numbers of prime cattle sold pre-Christmas, processors are battling for supply, and this bullish (sorry!) trend has had a positive effect on store cattle prices as well. Good quality cattle are in short supply and great demand, and after the fabulous warm rain over recent days, this is set to continue.

Cattle	Lowest Price	Highest Price
Best prime steers	\$1,420	\$1,960
Other 2 year steers	\$1,170	\$1,290

# HOME & GARDEN

## AUTUMN GARDENING TIPS

Autumn is a great time to rejuvenate a garden for the new season and for next spring.

The tips below are an autumn garden task list that will keep your garden flourishing.

- Autumn is the time to make new plants from cuttings. Take 10cm cuttings from hardwood herbs such as rosemary and bay or natives

such as banksias, grevillea and coastal rosemary. Remove the lower leaves, dip cuttings into hormone powder and pot in small containers of premium potting mix. Keep just moist and shelter from strong wind and sun.

- Trim hedges before the onset of winter to keep them compact and bushy from ground level.

- Check your lawn and make sure any weeds you sprayed last month are dying. Repeat the treatment if necessary. Aerate the lawn with a garden fork and scatter lime lightly over it. This sweetens the soil after many years of lawn food application. Rejuvenate tired lawns with an autumn feeding to ready them for the onset of cool winter weather.

- Gather fallen leaves, grass clippings, kitchen scraps and shred-

ded prunings, and layer them in a compost bin. Turn periodically with a garden fork to allow air to circulate and feed organisms, and decompose the organic matter quickly. Don't overload your compost with one particular ingredient - maintain a mix.

- Earthworms are a sign your soil is fertile. When you add organic matter such as leaves and cow manure to your garden soil, you will attract earthworms, so there is no need to add more worms to your garden. The worms you've attracted with organic matter will add nutrients from their castings, and make tunnels. Check for borer damage on all deciduous trees, paying attention to the trunk at soil level. It's easier to check when trees are dormant and bare.

- Don't try to cultivate soil beneath large trees; you will only damage the roots. Make planting holes between the roots instead and insert small plants with tiny root systems that establish themselves readily. Bromeliads thrive under trees.

- An old ladder makes a good support for climbing vines such as sweet peas. A splash of paint will give it extra impact in the garden or up against a wall.

- Transfer the leaves that fall on your garden and lawn to the compost bin on a regular basis, otherwise they will smother your plants and grass.

- Don't rush to prune spent seed heads. They provide a wealth of food for birds that visit the garden. Magnolia fruit attract parrots who feast on their seeds.

- Autumn is rose season, and they look gorgeous at this time of year. Choose the ones you love and order them from your local nursery.

- If you have cymbidium orchids, they should be placed in full sunshine to encourage good flower spikes during winter and spring.

- Divide evergreen perennials. Lift them from the soil, divide at the root and re-plant into well-conditioned soil. Mike Pero Real Estate Ltd Licensed REAA (2008) phone 0800 900 700.

## LASER PLUMBING & ROOFING WHENUAPAI

Laser Plumbing & Roofing is your local plumbing company based in Whenuapai. We are committed to servicing our local community families and businesses with great service at reasonable rates.

Laser Plumbing & Roofing Whenuapai are your local specialists in hot water systems, roofing and gutters, plumbing maintenance, repairs and installations. We also offer a state of the art drainage un-blocking service. In addition to these services, we have 24 hour service available for any plumbing emergencies.

We have some excellent staff at Laser Whenuapai, ensuring every member is either qualified or studying towards a certificate in their chosen field.

Ever had mess  
left behind?

No mess, no dodgy products &  
no run around. We guarantee it.

## I NEED A RESOURCE CONSENT AS SOON AS POSSIBLE

It's the exasperated cry we hear every day.

Although not all resource consents are complicated, frankly, a lot of them are – and they are often complex in ways that are not obvious at the outset. Doing work in the Single Lot or Countryside Living Zones can feel simple but landscape features and boundary limitations can put curly issues into your simple house extension.

Time delays can come from spending time working out the best consultants, getting quotes, taking them through your plans,

then waiting for them to start – let alone Council's time frames. At Thomas Consultants, we are focused on the process as a whole, not just the individual pieces. We are positioned to obtain your resource consent as fast as possible because:

1. We are a one-stop-shop with all of your specialists under one roof for rapid quoting and commencement of work
2. We work locally so we understand your area and how Council wants developments to occur so you get the right advice first time
3. We are easy to work with. We are a friendly bunch who believe in clear communication and a no-surprises approach.

If you would like more information about how Thomas Consultants can help you with your project, please contact us on [info@tcec.co.nz](mailto:info@tcec.co.nz).

## ROMAN SCAFFOLDING

Roman Scaffolding Ltd is a Kumeu based scaffolding company who specialise in both residential and commercial scaffolding. Tony and the team at Roman Scaffolding have more than 10 years' experience within the industry, and have built up a strong reputation as being some of the best scaffolders Auckland wide. We supply scaffolding to a wide range of clients, including home owners, builders, construction companies, roofing companies and painters.

Our scaffold specialists are certified scaffolders who are committed to safety and quality, and are also official 'Site Safe' members. All scaffolding jobs are carried out to the highest of

## TERRA NOVA PLANNING

The team at Terra Nova Planning are pleased to have been involved with the design and consenting of a number of successful residential and commercial projects in the Kumeu/Huapai and Riverhead community. Two recently consented residential subdivisions on Matua Road are currently under development. Phone 09 426 7007 or email tnp@tnp.co.nz.

## MOTORSPORT A GOOD TESTAMENT TO HEALTH AND SAFETY

Many people are cynical about the rules and regulations governing health and safety. Motorsport as we all know is dangerous (and a sport I enjoy and participate in), just as forestry is, police work, construction work, working on a roof, working around machinery. The requirement to identify risks and have a follow up meeting with the worker (in motorsport the com-

petitor) a driver briefing. The requirement to wear personal protective equipment even though it is uncomfortable to wear (gloves, and masks, headwear, long sleeve shirts on a hot day) yet in motorsport even at club level you have to wear a helmet, fireproof overalls two layers (hot), leather top lace up shoes before you can compete. As well the ppe (personal protective equipment) is checked by officials before you venture out onto the race track. The involvement of the worker in identifying the risks (the competitors) has seen the death rate among drivers in formula one (the list of Formula One fatalities includes drivers who have died during a FIA World Championship race weekend, and those who have died while driving a Formula One car outside the World Championship), fall from 15 in the 1950's, 14 in the 1960's, to 12 in the 1970's, 4 in the 1980's, 2 in the 1990's (1995) and 20 years later a fatality was recorded in 2014 at the Japanese Grand Prix. All incidents and accidents are recorded and investigated in motorsport, to see what can be learned and if a safety rule was not followed so why the reluctance to do the same at work (have you filled had your workplace accident and incident investigated? In motorsport the officials and drivers identify a risk on the race track or a rally and hold a driver briefing prior to competition to ensure everyone is aware of the risk. In industry the briefing is known as a Toolbox meeting, have you participated in one? If you do not have the correct ppe or licence on you then you will not be allowed to compete. Companies are required to keep a training and competency register. How many companies stop someone from working if they do not have their forklift licence on them? The Health and Safety at Work Act 2015 was introduced in response to the Pike River Mine Tragedy, which killed 29 men when an explosion ripped through the remote West Coast mine. In 2017 there were 49 workplace fatalities. John Riddell, Securo Health and Safety Consultant, ph. 027 477 9750, email securo4@securo.co.nz or

## NEW TRADE UNITS PROVE POPULAR WITH LOCAL BUSINESSES

Business owners and tenants have now moved into their new trade units located at 3 Workspace Drive, Hobsonville with only one remaining unit for sale and one remaining unit for lease says Travis Coffey of Phoenix Property.

"The interest in the units has been above our expectations" and he believes the flexibility that was offered to prospective business operators was the key to its success. The front unit consisting of 30sqm showroom, 30sqm mezzanine and 100sqm of high-bay warehouse with 3-phase power is still available for lease and would suit an operator who prefers street frontage to promote their business. In regards to the last trade unit for sale the asking price is \$740,000 plus gst (if any) with a supporting registered valuation available and can be supplied upon request. For further property details Travis Coffey of Phoenix Property can be contacted on: 021 414 384 or [travis@phoenixproperty.co.nz](mailto:travis@phoenixproperty.co.nz).

## KUMEU GARDEN HUB

Hope everyone is feeding and watering their tomatoes! This whopper weighed in at 850 grams, Beefsteak variety. Planted in good tub mix and Mynoki worm castings and mulched well to retain water, fed and watered regularly with liquid plant food. Kumeu Garden Hub stock a good range of Tomato mixes and fertilisers. Oh, and swan plants are back in store.

## \$85 = EXPOSURE FOR A MONTH

Budgets are tight and advertising is often expensive, but it's nice to know that someone is making it easy and cost effective. For \$85 plus GST you can be exposed to over 22,000 locals for a whole month. That is only \$2.80 a day. For more information email our editor at [sarahbrightwell022@gmail.com](mailto:sarahbrightwell022@gmail.com).

# BUILD

## NEW

### NEW BEGINNINGS

A new year often triggers a desire for change. This time of year motivates us to take on new challenges and make improvements both personally and professionally. At Signature Homes West Norwest Auckland we too take time to evaluate our situation and adapt to accommodate the challenges of a new year. This year sees our business farewell staff due to changes in family dynamics and exciting additions. As a result we get the opportunity to welcome new people into our team. Such changes create an amazing opportunity for our business to evolve and develop as new personalities bring with them a wealth of previous knowledge and expertise. We have the pleasure to introduce to you Philip Beech, our quantity surveyor. As your quantity surveyor Philip has the responsibility of ensuring pricing and quantities of product and materials are calculated off your plan to enable to provide a fixed price contract. Therefore you have

all the information before your project begins along with the peace of mind that the price will not change, no hidden add ons/costs. He is a gem, a very experienced gem. Another fabulous addition to our team is Debby Corliss. Debby has come onboard as part of our sales team as a new home consultant. A lovely lady who offers years of previous new home build expertise with a gentle enthusiasm and passion to assist you to realise your dreams. Debby can assist you using our pre-designed plans, developments and/or subdivision or help you realise that design and build dream home from scratch. Bring your wishes to Debby and she will make it happen. Call into our kumeu office at 80 Main Road to meet our new team members. Phone 09 412 9010 or 0800 020 600.

### TECHNOLOGY MAKES LIFE EASIER

Jetting off for a well-deserved break is exciting. Deciding what to pack is often another story. Not to mention which books to take without taking up precious luggage space. The invention of the Kindle addressed this very issue for many travellers. Hosting an entire library on one small device, sparking the end to lugging (and financing) heavy books around. Building a new home is much like planning a trip abroad. There are decisions and steps that must be taken so, as to celebrate exciting events along the way. But, there is potential to include too many heavy hardback books, in the form of outdated processes and inefficient tools. The way to combat this? Use a trusted,

## CHOOSE A HOUSE & LAND PACKAGE

MODERN LIFESTYLE WITH MODERN BUILDING MATERIALS

Our House & Land packages are constructed to suit the modern lifestyle with modern building materials, in new suburbs that are designed with lots of shared green space and parks.

If you are looking to buy a new home, there are many great reasons to consider a house and land package:

- Lower Deposit required
- Customised and adaptable design – designs can be altered to meet specific needs
- Suburban Planning – new homes are often built in new developments within close proximity to public transport, schools and community facilities
- Insulation – dry, quiet and comfortable homes
- Peace of Mind – Signature Homes offer robust guarantees

## MOVING THE EARTH

Moving earth is a dirty job, but for Jimmy Moses of Earth Developments, when he leaves a building site it not only has quality foundations but is always clean. It's these workmanship traits that have earned him the Maddren Homes Tradie of the Month nomination. His leadership, accountability and communication skills has made him well sought after and respected, and it's not gone unnoticed. While it's a team effort to build a house, hard workers who go the extra mile deserve recognition, agrees both Maddren Homes and proud sponsor Western ITM. Jimmy's great attitude has earned himself a Western ITM voucher, 'good on ya' Jimmy.

## PREPARE TO BE INSPIRED

Now you have the flexibility to build exactly what you want.

Like many builders, G.J. Gardner Homes has an extensive range of house plans to suit the needs of all kinds of families and lifestyles. What makes us different is that our plans don't just look good on paper. They work incredibly well in practice, designed to maximise living spaces and optimise living flow. It's among the reasons why more New Zealanders have chosen to build with G.J. Gardner Homes over the last 17 years than any other builder. G.J. Gardner plans also provide a greater deal of flexibility because they are designed using an engineering formula that allows the layouts to be easily modified. So while most of our customers choose one of our concept plans, amongst all of them adapt the layout to make their home unique and personal. Simply bring us your wish list and see how flexible we can be. Call in to our show home today at 7 Grove Way Riverhead to have a chat to one of our Sales Consultants, Leanne, Fiona or Kylie, or contact us at the office on 09 412 5371.

## FLETCHER LIVING'S NEW SHOW HOME IS OPEN

Come in and see us at 7 Peihana Road, open 7 days, 10am-4pm. Take a look around our new show home and introduce yourself to our friendly sales team. We have a range of completed homes available ready for you to view today. These homes offer a mix of two level duplex and standalone homes with expansive and light-filled open plan living, on trend kitchens and high quality fixtures. The quality build and well thought out design will be sure to impress. You will feel at home and entertain with ease. Perfect for all ages and stages and lifestyles. Get in quick to be one of the first to view our exciting new release of homes. For more information visit [fletcherliving.co.nz](http://fletcherliving.co.nz) or call Christina Tubman on 027 334 4752.

## TIPS & ADVICE

### THE DANGERS OF 1080 POISONING FOR PETS

Fluoroacetates do occur naturally in some plants, but our main losses are to domestic animals such as dogs that have ingested baits of synthetic fluoroacetate (1080), which has been used in New Zealand for vermin control since the 1950's. 1080 as it is more commonly known is tasteless, odourless, water-soluble and kills for months after it has been dropped. It is the most commonly used poison against feral cats, rats, rabbits, possum and wild pigs. Though it is restricted to licensed operators it is a common poisoning in dogs sheep and cattle. Because rodents require a relatively high dose of 1080 to be killed, secondary poisoning can occur to cats and dogs if they eat dead or dying rodents. 1080 has been found in possum carcasses 3 months after poisoning. Signs of poisoning may appear between 30 minutes or up to several hours after the bait has been ingested. Signs: restlessness, hyperactivity, disorientation, sensitive to touch, aggressive, circling, barking or howling. The second stage would be excessive drooling, vomiting, defecation, urination, muscle tremors and convulsions. Death can occur within 2-12 hours of poisoning. As there is no antidote you need to contact your vet immediately. They may recommend making the animal vomit – but you can only induce vomiting if you are sure that your pet has taken 1080 as other poisons can cause damage when vomited. Use some

### CAT SHOW

Sunday 4 March 2018 – 10.00am to 3.00pm. Kumeu Community Centre, Access Road. TOSCA Cat Club is running a show in March for our specialist breeds of Siamese and Oriental Shorthair (the tall slinky ones) with the addition of British Shorthairs (rounder than round), Devon and Cornish Rexes and Tonkinese. Our annual show features beautiful champions strutting their stuff (and yelling about it) as well as divine kittens. Our judges come from all over New Zealand and will be giving a commentary on the cats as they are judged. Come in the morning to watch the judging, or come in the afternoon to see the winners and prizegiving. All welcome to come and view for a small door charge of \$4 per adult and \$2 for children (sorry, we don't have Eftpos, please bring cash). If you have any queries, please call Sue Starrs on 09 833 5200.

### KANIKA PARK CAT RETREAT

Our philosophy - only the best will do. We are boutique. We have eight very large, spacious suites. We specialise in giving your pet, our guest, the best experience during their stay. We have polished concrete flooring, multi-level furniture, separate eating and toileting compartments. Plush blankets for lounging, snuggly beds to cuddle in with lots of toys to entertain. We serve wet food for breakfast and dinner. Bottled water and premium biscuits are always available. Your baby will be relaxed in our climate controlled suites and you will have complete peace of mind knowing we live on site and continually monitor them. The last bed check is

## CATS FIRMLY IN THE SIGHTS OF A BLINKERED AUCKLAND COUNCIL

The Auckland Council is currently reviewing the Regional Pest Management Plan, which will include the ability to trap and kill your family cat – if officers get their way. In the new policy, the Council has decided that companion cats near “ecologically sensitive areas” are now a pest and can be executed on a zero-tolerance basis. On the surface, this doesn’t sound too bad – until you realise that there are literally thousands of these “ecologically sensitive areas” scattered across Auckland. Few of them are signposted, none are marked on maps, and some of them are so small that they may be no more than a handful of trees on reserve land at the end of the street, and Auckland Council is already pursuing this policy. So far, eight cats that were pets owned by families have been trapped and killed near Shakespear Park. Some of the cats had collars, bells and microchips, but this was no defence against Council rangers with guns in their hands. Allegedly, the killings were to protect native birds – but the park itself has an incomplete predator-proof fence. Had the Council been responsible and spent the few thousand dollars necessary to fix the fence, none of the deaths would have been necessary and the birds would have been safer as well. The Council’s apparent solution is to require that all cats are mi-

crochipped – at a cost of tens of millions of dollars to owners. But as the Council well knows, microchipping is an imperfect solution at best. One of the major manufacturers, Virbac, has recently stated that around 15,000 microchips they manufactured between 2012 and 2017 have failed or is likely to fail – and they have yet to order a recall, so most owners won’t know that their cat is no longer identified. Under the new Council policy, a failed microchip because of poor manufacturing will be an instant death sentence. It’s time for this ideologically-driven madness to end. If you want your cat to remain a member of your family rather than a notch on some Council ranger’s gun belt, then contact your Auckland Councillor and demand that the Regional Pest Management plan is stopped in its tracks.

## YEAST INFECTIONS IN DOGS

At Angels Grooming in Massey, we are seeing more and more dogs come in with sore, red and inflamed patches of skin, and inflamed ear conditions, which are often signs of a yeast infection. We have talked to a vet who has done a lot of research and developed a system which includes an antifungal course to kill the underlying yeast infection as well as antibiotics if needed. This way, the dog’s immune system is then able to fight the infection more effectively. Avoiding carbohydrates in their diet is vital, as yeast feeds on sugar, otherwise the likelihood of reinfection is high. A professional dog groom will help prevent the likelihood of bacterial infections as bacteria is hugely reduced during a groom with thorough shampooing, blow drying, ear cleaning, and tailored trimming of areas that are prone to matting. We offer free consultations. Angels Professional Grooming Centre, Massey. Phone 09 833 5571.

## Matua Ngaru School Proposed Enrolment Scheme

Matua Ngaru School is a new state primary school (Year 1-8) opening in 2019. The Establishment Board of Trustees is in the process of implementing an enrolment scheme as directed by the Ministry of Education under section 11H(1) of the Education Act 1989.

All students who live within the proposed home zone of the school are entitled to enrol at the school.

The proposed zone and map can be viewed on the school website <https://sites.google.com/matuangaru.school.nz/ebot/our-community>

Members of the community are invited to make comment regarding this proposed enrolment scheme in writing to:

Alan Curtis  
Board Chair  
Matua Ngaru School  
15 Sunnyside Road  
RD3 Albany 0793

You can also find us at:

Twitter: @MatuaNgaru

Website: <https://sites.google.com/matuangaru.school.nz/ebot/home>

Facebook: <https://www.facebook.com/MatuaNgaruSchool/>

# FOOD & BEVERAGE

## MARY BERRY'S EASTER BISCUITS

100g softened butter  
75g caster sugar + extra for sprinkling at end  
1 egg – separated  
Zest of one lemon  
200g plain flour  
50g currants  
1-2 tbsp milk

### Method

1. Preheat the oven 200C/180C Fan. Line three baking trays with baking paper.
2. Put the butter and sugar in a bowl and beat until well combined and fluffy. Add the egg yolk and lemon zest. Sift in the flour and mix well. Stir in the currants and enough milk to make a fairly soft dough.
3. Knead the dough on a floured work surface and, using a rolling pin, roll out the dough until 5mm/¼in thick. Using a 6cm/2½in fluted cutter, cut out 24 rounds. Transfer to the baking trays using a palette knife and bake for 8 minutes.
4. Lightly beat the egg white using a fork.
5. Remove the biscuits from the oven and brush the tops with the beaten egg white. Sprinkle over caster sugar and return to the oven for 5 minutes, or until pale golden-brown and cooked though. Leave to cool on the trays for a few minutes, then carefully lift onto a wire rack to cool completely.

Recipe Tips - The biscuits can be made up to three days ahead

and kept in an airtight container.

Work quickly in a cool area of the kitchen as you do not want the dough to become too soft. If it is soft after mixing, chill it for 10 minutes, or until easier to handle.

## GGs WOOD FIRED PIZZA

Kumeu's most well-known wood fired pizzeria has been under a few guises in its time and now new owners Scott and Abby Limbrick are keeping the fire stoked as GGS wood fired pizza.

Using a local supply of 100% Manuka and kanuka wood

to fire the oven, ensures

these are some of the tastiest pizzas around and can become, as a few of the locals have found out, quite addictive.

GGs use only high quality local and imported salamis and meats, quality New Zealand cheese and veg and have a surprisingly extensive menu to please every taste, items like Smokey BBQ wings, hand cut wedges with smoked garlic aioli, salads, desserts and drinks.

GGs will also sell you dough balls or precooked bases for those who love to make pizzas at home

GGs Woodfired pizzas - 316 Main Road Kumeu, phone 09 412 5060.

## ENERGISE YOUR MORNING WITH THIS ESPRESSO NICE CREAM RECIPE

This blend of bananas and coffee will get you going in the morning. The recipe serves two and is brought to you by the team at The Source Bulk Foods in Kumeu, suppliers of wholesome, natural foods and a zero-waste lifestyle.

### Ingredients:

- 3 – 4 frozen bananas
- 3 tbsp. cold-dripped coffee
- 2 tbsp. almond butter
- 1 tbsp. mesquite powder (optional)
- ½ tsp. maca powder (optional)

## SOLJANS ESTATE WINERY

As the shine wears off the New Year and we all fall back into routine, why not treat yourself to a top notch culinary experience here at Soljans Estate Winery Café, presented to you by our award winning chefs? While you're

here, why not take a stroll through our stunning vineyard, or even book yourself a tour and tasting? Our guided tours offer groups (minimum 10 people) the chance to be taken through the winery and learn about our family's winemaking history, as well as a thing or two about wine itself. This is then followed by a tasting in which you will get the opportunity to taste both, New Zealand's Most Awarded Sparkling Wine – Our Fusion Sparkling Muscat – and, our Iconic Founders Tawny Port.

Call us now to make a booking - 09 412 2680 | Café or 09 412 5858 | Cellar Door and General Enquires.

## THE HERBALIST CRAFT BEER

Try these tasty muffins for a late afternoon snack on the weekend. Pair them with our Nettle & Bilberry Lager for extra deliciousness.

Hearty lager muffins ingredients:

- 1 cup plain flour
- ½ cup cauliflower, finely chopped
- ½ cup corn kernels, fresh or frozen
- ½ cup ground almonds
- 125g feta, crumbled
- 1 teaspoon baking powder
- 1 tablespoon fresh herbs, finely chopped
- 4 eggs, whisked together
- 4 tablespoons The Herbalist Nettle & Bilberry Lager

1 cup grated cheese

Method - Preheat oven to 200C. Prepare muffin tins with parchment strips or paper cases. In a large bowl, combine all of the ingredients except ½ cup of grated cheese. Spoon the mixture into the muffin tins and sprinkle the remaining grated cheese over the top. Bake for approximately 18-20 minutes. Serve warm with butter and a cold glass of our Nettle & Bilberry Lager. Stockists: The Bottle-O Huapai, Black Bull Kumeu, Fresh Choice Waimauku, Boric Food Market, Soljans Estate Winery, Riverhead Fine Wines, Hobsonville Kitchen Cafe and select West Liquor stores.

## FORESTER

At Forester in Riverhead we aim to give locals a place they can meet up, have a drink and something to eat a few times a week.

We have created a set of rituals for each night where we offer a great product and a great price. We also offer some of the best cocktails in the area and aim to use local produce where possible.

Opening Hours are, Tuesday to Thursday 12pm - 9pm and Friday and Saturday 12pm - late, Sunday 12pm - 9pm. Call us on 09 869 4589 or book online through our Facebook page.

## PEKO PEKO JAPANESE TAKEAWAY

Sad news... Sunday 11th March will be our last day of trading with our food truck. Thank you so much for your support for the last 4 years. It wasn't easy journey to reach here and this was definitely the hardest decision we have ever made, but it's time to have more family time with our son. However, at the same time there is exciting news. We will open our new eatery

on 102C Hobsonville Road, on the corner across from Hobsonville Primary School. Yes, our little Peko Peko will be bigger! And we couldn't achieve this without each of you so thank you all for your support. We are hoping to open our new place late 2018 so please bear with us for next 6+ months. We won't go anywhere far and we are already thrilled about our new start. We will update our Facebook page as much as we can while we are closed. Thanks again for your support and we will see you soon.

## THE SINGLE FIN XPA

Hallertau have teamed up with Muriwai's Maori Bay Board Riders to create a delicious drop that quenches the thirst and helps support the future of surfing at Muriwai. The Hallertau Single Fin XPA is a refreshing and lightly hopped extra pale ale, ideally suited to a post surf session. The Single Fin XPA will be available in March from Hallertau Brewery, Muriwai Surf Club and at Board Rider competitions and events.

## CRUSTY'S PIZZA BURGER

West Auckland pizzeria and burger restaurant Crusty's Pizza Burger has won most popular restaurant in the Menulog Restaurant Awards for summer 2017/18.

Located at Unit 7, 160 Hobsonville Point Road, Crusty's Pizza Burger is renowned for its signature Beef Pizza Burger dish - a beef, pepperoni, red onion, and mozzarella cheese burger encased in a golden pizza shell. The family-run business handcrafts its pizza and burgers using locally sourced ingredients to provide the Hobsonville community with a delicious range

of food. These qualities helped it take out the title of the most popular Menulog restaurant in New Zealand.

The Menulog Restaurant Awards are open to all restaurants and takeaways on the Menulog platform and are selected based on popularity, rating and customer satisfaction. Menulog is New Zealand's largest online food delivery service cuisine with more than 900 restaurants available via the Menulog App or [menulog.co.nz](http://menulog.co.nz).

Owner Brendon Marsh says he is proud to have received the award as customer satisfaction is a huge priority for his business. "We like to put personal touches into our business, like for example naming some of the dishes after street names in the area. Being on the Menulog platform has helped my business grow since we opened two years ago. It means customers don't need to jump in the car - all they need to do is jump online and get their meals delivered, it's an efficient and convenient technology. There's so much competition out there for local restaurants, especially in burgers and pizza, and you have to evolve and change to keep up with what the market is demanding."

## ALL IN A PICKLE

Did you know that one large gherkin pickle contains less than 1 gram of fat and is rich in potassium, vitamin A and K? If you're not so keen on the raw article, then NoShortcuts' Gherkin Relish, which consists of over 40% fresh gherkins, is a low fat, low salt way to add flavour to salads, sandwiches, hamburgers and pasta. It's also addictive with fish, chicken, pork, ham and cheeses.

Like all NoShortcuts products, this gherkin relish is completely vegan using fresh, locally grown produce. Their entire range of gourmet chutney, relish, pickle and jam is handmade - just like mum made and there are no artificial flavours, colours or preservatives added.

To purchase, go to [www.noshortcuts.co.nz](http://www.noshortcuts.co.nz) or your nearest Farro Fresh store. Or follow Noshortcutsnz on Facebook or noshortcutschutneys on Instagram.

## IS YOUR CHILD'S SCHOOL BAG TOO HEAVY?

Did you know that your child's school bag should be around 10-15% of their body weight? Too often, children's schoolbags are too heavy which can put a lot of strain on their backs, shoulders and necks. I have recently post a new video in which I discuss some of the key things to look for when getting a school bag for your child, but also how it should be worn in order to help prevent injuries. I would encourage you to have a look at your child's schoolbag, see how heavy it is and how they wear it and then watch the video and see how it compares. The video is available on my website in the blog page or on my Facebook page ([www.facebook.com/elevatechiropractic](http://www.facebook.com/elevatechiropractic)). Elevate Chiropractic: Shop 1, 10 Greenhithe Road, Greenhithe. Phone 09 413 5312. [www.elevatechiropractic.co.nz](http://www.elevatechiropractic.co.nz).

## ARTHRITIS AND CHIROPRACTIC

Arthritis means joint inflammation - Arthritis is not a single disease, it refers to a group of more than 100 rheumatic diseases and other conditions that can cause pain, stiffness and swelling in the joints. Any part of the body can become inflamed or painful from arthritis and can be very common, however this does not mean that arthritis can only affect the elderly. Some forms of arthritis can appear in childhood and early adulthood. Symptoms: Arthritis is a disease that causes the joints to swell, resulting in pain, stiffness and loss of function particularly in the hands, knees, feet, hips and spine. Symptoms depend of the type of arthritis and can range from benign to severe. It could be caused by cartilage that is wearing away, a lack of fluid, infection, or a combination of many factors. Chiropractic care and arthritis: Many arthritis sufferers assume that nothing can be done to reverse the degeneration or relieve their pain. Chiropractic care addresses the practical issue of getting the body to move more freely and maintaining as much normal function as possi-

ble, so that arthritis need not be crippling. Once the body is free from \*subluxations, the need for pain-relieving medications often times lessens or disappears altogether. Before resorting to drastic options for your arthritis, such as surgery and replacing the affected joints with synthetic devices, give the team at Kumeu Chiropractic a call. \*Subluxation; a subluxation is the result of spinal bones with improper motion or position affecting nerve communications between your brain and your body. Kumeu Chiropractic - 8 Shamrock Drive. Kumeu. Phone 09 412 5536. Come and have a chat with our team at the Kumeu Show 2018.

## SPA DI VINE'S FOCUS ON EYES

Spa Di Vine (est. 2002) in Waimauku, will be focusing facial treatments on the all-important eye area this month. The skin underneath the eye is very thin and delicate, so it's important to use a hydrating formula to protect it. Stay away from products that contain a lot of fragrance, or ingredients such as exfoliating beads.

Skin care designed for the face can possibly be too heavy for the skin around the eyes, and might clog pores and cause milia. We look for products that include algae, which drains toxins, improves microcirculation and diminishes dark circles. Our go-to is the Theravine Ice-Crystal Eye Contour Crème, as it contains the snow algae as well as grape seed extract, which firms and protects the skin from free radicals. Try for yourself - For the month of March 2018, Spa Di Vine will add the Ice-Crystal Technology Eye Crème application to every facial booked, for free! Phone Spa Di Vine for your appointment. Spa Di Vine Phone 09 411 5290 or send an email to [relax@spadivine.co.nz](mailto:relax@spadivine.co.nz) or visit our website [www.spadivine.co.nz](http://www.spadivine.co.nz).

## LET'S GET MOVEING

Rest, Ice, Compression, and Elevation (RICE) is the most popular method of dealing with physical injury. We have done it for years. However, this treatment might not be the best recovery method for all injuries. Movement, not rest - Inactivity shuts the muscle down. Blood flow is restricted and tissue atrophy follows. In contrast, activity improves blood flow, which brings oxygen and removes metabolic waste. Inflammation exonerated: don't ice - Anti-inflammatory medications deserve caution. There is no evidence non-steroidal anti-inflammatories (NSAID)

**Kumeu Chiropractic**  
adjust ♦ adapt ♦ thrive

[relax@spadivine.co.nz](mailto:relax@spadivine.co.nz)  
[www.spadivine.co.nz](http://www.spadivine.co.nz)

improve the outcome of acute sports injuries or reduce swelling  
 Compression and elevation - Evidence to confirm or refute benefit on injury recovery is hard to find! Some people find it helps and other people do not, it is personal choice! Emotional cost of injury - Don't be disheartened by an injury. Get moving and get those feel good endorphins firing. Start with simple Range of Movement exercises and progress to cross training and strengthening before gradually returning to full participation in your chosen sport. Summary: Ice is out. Anti-inflammatories-it's up to you. Use compression if you believe it works, and elevate if you like. Gradual easing back to full participation. Let's call it MOVE: Movement, not rest. Options: offer other options for cross training. Vary rehabilitation with strength, balance and agility drills. Ease back to activity early for emotional strength. The full article can be found here - [www.thischangedmypractice.com/move-an-injury-not-ice](http://www.thischangedmypractice.com/move-an-injury-not-ice).

## WHO IS THE SASSY MANGO?

Hi, I'm Shelley...The Sassy Mango. You may have seen me driving around West Harbour. My business is all about Empowering Women to find their sparkle again. I'm offering you a free 1 hour consultation so you can meet me and discuss what I do and see if I am the right person to help you achieve your dreams. Book through my website or call me for a chat. Start today...you can do it. My story, is on my website. [www.thesassymango.co.nz](http://www.thesassymango.co.nz) Phone 027 852 2522.

## WHAT IS NEUROMUSCULAR THERAPY?

As a neuromuscular therapist this is a question I am often asked. Neuromuscular Therapy is a very specific type of massage therapy used to relieve pain and help unhappy muscles return to their happy place, functioning optimally without aches and pains. Using targeted massage techniques, working with the client's breath, and prescribed homecare exercises (you know, the ones you sometimes do or don't) to eliminate the causes of most muscular aches and pains. NMT aims to balance the

nervous system with the muscles and the bones (skeleton) to naturally bring the body back into alignment, the place where it should be. We look at your posture, the way you stand and walk, and which muscles are long or short. It is used to eliminate ischemia, which is a reduced blood flow caused by tight muscles and fascia. With NMT we also test for trapped nerves or possible disc problems to figure out what's causing numbness, pain, pins and needles, carpal tunnel problems or sciatic like symptoms to name a few. NMT takes into consideration factors that can aggravate or worsen your condition such as joint problems, daily postures in your working or sporting environment, repetitive strain issues, nutrition, emotional wellbeing and other elements that can mimic muscle aches and pains. The longer a problem exists and or persists, the longer it will take to deal with – one session is not going to resolve a problem that has been around for the last 3 months or more. So, remember, when you feel a niggle, deal with it before it becomes a painful or limiting problem. Self-care is not a luxury; your body will thank you for it. If I can help you with any of your muscular aches and pains call Debbie from Realign Massage & Neuromuscular Therapy on 021 120 2175.

## SPRAINS AND STRAINS

Sprains and strains are common injuries affecting different parts of your body. A sprain is a stretching or tearing of ligaments. The most common location is in your ankle, wrist or thumb. A strain is a stretching or tearing of muscle or tendon. Strains often occur in the lower back and in the hamstring muscle in the back of your thigh. Symptoms of most sprains or strains are very similar: pain and inflammation, and sometimes bruising. Most people with mild sprains and strains can treat these injuries with "RICE" therapy: Rest, Ice, Compression, Elevation. If the pain and swelling gets worse or you have not improved after a couple of days, see your doctor or physiotherapist. Of course, you probably can't wait to get active again, but don't rush it. You could reinjure the area and make it worse. It's best to rehab your injury gradually. A physiotherapist can recommend certain exercises

## NEW YEAR NEW YOU 2018 - 6 WEEK LADIES ONLY CHALLENGE

Let's celebrate the start of a new year - women supporting women. Ladies - most of us have a pre-determined mindset this time of year, we've set New Year's resolutions and not long after it has started "I can't" sets in. Kumeu Gym Ladies only New Year New You Challenge is here to help remove these common misconceptions, to change these "I can't" into "I can, I will, I'm strong, I'm determined to build your confidence, strength and fitness. If you are new to the area, this is a fantastic opportunity to meet friends while getting fit in a fun and safe environment. Check out our website [www.kumeugym.co.nz](http://www.kumeugym.co.nz) or our Kumeu Gym Facebook page for details or call us 09 412 8932. Register now - Challenge start date is Saturday the 24th March - limited spaces.

## SHOE TALK'S TIPS ON HOW TO FIT SHOES

Try both shoes on, you really want to have the footwear on both feet as it will feel different and sit differently on each foot. Also have you ever tried on a high heel when you had a sneaker on the other foot and then done the "bob-hop" around the shop? Buy the shoes that fit your larger foot. You can always make a shoe fit better with heel grips and insoles. I love high heels but ladies, if you are going to be walking a long distance, wear a pair of flats or sneakers and change over at your destination. There needs to be room for your toes, they should not feel cramped and in sports shoes you should be able to wiggle them up and down and side to side. Try to select

footwear that is shaped like your foot, if you have bunions, select footwear that has a nice supple or soft leather upper, so that it will stretch over this area. Your heel should fit comfortably in the shoe with a minimum amount of slipping - the shoes should not ride up and down excessively on your heel when you walk. Buy shoes with padded insoles and good out soles. These take the impact away from your joints. Your foot bed should not be wider than the shoe, there should be no spill out, spill over, or ballet flats that do not cover the tops of your feet at all. If you are selecting footwear and the ones you "love" don't fit correctly and the ones you "like" do, buy the ones you "like" your feet will "love" you forever!

## NEW ARRIVALS

After a very busy Christmas, you might have a bit of time now just to relax and enjoy browsing through our new arrivals. Our Danish and French designed glasses are sophisticated but fun with fabulous colours and the latest fashion shapes. We have sourced a new range of gifts and homewares from Mexico - totally individual and appealing in earth and stone tones. Come and browse at leisure at Hobsonville Optometrists - Glasses and Gifts, 143 Hobsonville Road. Open Saturdays and Mon to Fri 9am - 5pm.

## SHOULDER PAIN

People strain their shoulders quite often. Especially during summer time in the garden or playing sport. Often minor injuries settle by themselves, but sometimes the pain just doesn't go away or it becomes difficult to lift the arm. Is it arthritis now?

Usually not. It can be one of the several problems. Some are easier to fix with osteopathic manipulation or exercises, others are trickier. A lot of problems stem from the tight muscles and soft tissues. It is very common to have shoulder pain that is a radiation from cervical or thoracic spine. These respond well to manipulative treatment. Another common shoulder problem is called rotator cuff injury. This is when one of the tendons in the shoulder gets sprained or even torn resulting in shoulder pain and affecting movements. Rotator cuff injuries take longer time to recover and sometimes require a surgical approach or corti-

some injection to settle them. At the Family Osteopathic Clinic we regularly treat patients with shoulder pain. Osteopathic manual treatment and in some cases acupuncture usually do the trick for uncomplicated strains, while more serious problems we manage with the specialist care. We can refer for further tests, such as X rays or ultrasound scans if necessary. Come and see us at 39 Hobsonville Rd, West Harbour. For an appointment call 09 416 0097.

## NEW HEALTH PROVIDER AT WAIMAUKU

Foot Care Clinic Podiatrist, Amber Chaudhury is commencing a monthly clinic out of Waimauku Doctors. She will be available every 3rd Wednesday of the month working from 10am till 3pm. She will accept private clients and also has a contract with Pro-care for diabetic patients. To make an appointment or discuss costs with Amber you can ring her directly on 021 107 0513. Also to note, flu season will soon be upon us and we anticipate flu vaccines arriving in March (date to be confirmed) and as from April 1st the shingles vaccine is fully funded for the over 65s.

## PELVIC FLOOR STRESS TEST

Think your pelvic floor is fine? You might be surprised – particularly if you are: A mum. Experiencing upper or lower back pain Overweight. A current or ex-athlete. Try the test below. If you can perform it with no leakage or bearing down sensation then great! Your pelvic floor is strong and you're not aggravating any asymptomatic problems during exercise. If you do experience issues, then KC Fit can help. At home, drink 500ml water. Wait 20-30 mins then perform: 30 secs skipping - legs together. 5 x full burpees - legs together, chest to floor, jump at top. 1 x 10m shuttle run and return. 5 x star jumps - Cough on the last two. If you have problems, listen to your body. Kirstyn Campbell at KC Fit offers training face to face and via Facebook where she teaches how to strengthen your pelvic floor and deep inner core.

## HAND INSTITUTE KUMEU

The Hand Institute specialises in treating injuries to the hand, thumb, wrist and elbow. We treat all injuries from the elbow down, including: Fractures of elbow, wrist, fingers and thumb. Elbow, wrist, thumb and finger sprains/dislocations. Casting and splinting can be provided if required. Tennis and golfer's elbow. Sports injuries to the upper limb. This service is free of charge

if covered by ACC apart from a one off surcharge of \$40-00 for incidental costs not covered by ACC. Arthritis of the upper limb, hand and thumb. Overuse symptoms caused by Trigger Finger. Overuse symptoms caused by Carpal Tunnel Syndrome. Carpal Tunnel Syndrome (CTS) is caused by compression of the median nerve as it runs beneath the carpal tunnel ligament at the wrist. Symptoms include pins and needles or numbness in the thumb or fingers that wake you at night, weakness or dropping things. These symptoms may also be caused by other conditions. At the Hand Institute we provide comprehensive assessment of your symptoms and can refer you to a specialist if indicated.

## ARE YOU PROTECTING YOUR LITTLE ONE'S EYES FROM THE SUN?

It's habit to slather kids in sunscreen and pop on their hats before they go out in the sun. But do your kids wear sunglasses? Have you ever wondered if they need to? Children should wear sunglasses every time they are outdoors for a significant amount of time. You don't have to spend a fortune, just ensure the pair you choose have standard UV 400 lenses or 100% UV protection and avoid novelty sunglasses with coloured lenses because they don't provide as much protection. Westgate Optometrists have a good selection of children's sunglasses available including the new Ugly Fish kids 'unbreakable' range. These are available in a range of colours and styles, are polarised with 100% UV protection and are designed to flex instead of break. Stop by to check them out! Phone: 09 831 0202 Website: www.westopt.nz.

## COUNCILLOR'S CORNER

By Rodney councillor Greg Sayers - What's happening to our rates?

Mayor Phil Goff is planning to increase the rates by 6.2%, adding a regional fuel tax too.

This will have the overall effect on our wallets of almost a 7% increase in charges from the Auckland Council.

The breakdown is:

- A 2.5% general rates increase.
- A new "targeted rate" of 2.8% to improve CBD storm water pipes.
- An additional "targeted rate" of 0.9% to fight kauri dieback disease.
- A regional fuel tax costing motorists about \$125 a year extra will replace the \$114 per annum transport tax currently on our rates bill. The difference is equivalent to a 0.5% rates increase because \$125 equates to a 5.3% increase, while removing \$114 equates to a 4.8% decrease.

Council spin doctors are now working hard to convince us Goff is keeping his election promise to keep rate hikes at less than 2.5%, but no one will be falling for it when they open their new rates bill.

Also, the mayor is not planning to spend any of the new taxes taken from Rodney on projects actually in Rodney. The closest spending may be on bus lanes added to the northwestern mo-

torway.

I am continuously challenging him about the fairness of this decision. His answer is consistently the same, "It has nothing to do with fairness, it's all about achieving Auckland's priorities".

We are achieving local community wins all the time, however, the council clearly still plans to syphon more from Rodney. At a minimum there should be a fair balance of the regional fuel tax being spent back on Rodney projects.

To assist the people of Rodney I put forward an argument to amend the mayor's proposed rates increases. The amendment sought to allow the public of Auckland to have formal hearings directly with the mayor and councillors to express their democratic voice and any concerns. It was voted down, by ten votes to nine.

Because Rodney is not getting any of the money back, I asked for Rodney to be excluded from the regional fuel tax. This was also lost.

Goff's counter is that the transport levy of \$114 per year, which is 4.8% of the average rates bill, will be deducted from the planned 6.2% rate increase. So, 6.2% minus 4.8% equals a 1.4% rate increase.

This is sneaky as it completely excludes the 5.3% impact on our wallets of the regional fuel tax. So, the "wallet test" is the 1.4% plus another 5.3% equals 6.7%.

While road sealing and maintenance, footpaths, public facilities and traffic solutions remain underfunded, our near 7% increase will be used to prop-up the CBD because of the continued inner-city focus.

Len Brown would be delighted.

## BUILDING RESILIENCE THROUGH PLAY

Real play means taking risks—physical, social, and even cognitive. With a spacious and well-resourced outdoor environment, children are able to try out new things and learn a great deal in the process. By giving children the chance to engage freely

in adventure play, they quickly learn to access their own skills and match them to the demands of the environment.

They are able to ask themselves—consciously or unconsciously—"how high can I climb", or "what resources around me can I use to my advantage?" They became savvy about themselves and their environment.

Children who are confident about taking chances rebound well when things don't work out at first. They are resilient and will try again and again until they master a situation that challenges them—or wisely avoid it, if that seems best.

## UPGRADE OF STATE HIGHWAY 16 AND ANOTHER REST HOME FOR KUMEU

The announcement by NZTA on the 12 February, to spend \$53 million on the upgrade of S.H/Way 16 is welcomed by the Kumeu-Huapai Residents & Ratepayers Association.

It will, when completed, make the S.H/Way 16 a lot safer. The widening and provision of safety barriers will reduce serious accidents on the highway.

The work starting at the end of 2018 cannot come quick enough as far as the community is concerned. The design and construction management are not clear at present. The construction work could exacerbate traffic in movements, especially in the morning and evening commute.

The four lanes to Old North Road from Brighams Creek together with a roundabout at the Riverhead turnoff will ease flows into the city. The completing date of February 2021 means there will be a significant inconvenience period to endure in the interim.

The bigger solution of a bypass is still far from finalised. The volume of traffic in Kumeu, is still increasing to the extent that traffic jams are occurring in the township rather than on the North-Western Motorway.

The details of the S. /H/Way design are being finalised with the construction starting at the end of 2018. A median strip and wider shoulders on the S.H/way 16 will help with turning and pull over for vehicles.

The 'Rest Home for Aged Care' adjacent to Soljans was before the Environment Court in mid-February with a 5 day hearing. The new design has reduced the building to a 2 storied structure, still with substantial earthworks and on site drainage.

Without going into details, the case revolved heavily around the New Unitary Plan details and definitions. The case was the first real test of the 'Countryside Living' zone and rules. There

## CP AUTHENTIC ASIA RESPONDS TO GROWING NZ DEMAND FOR DUCK WITH PREMIUM COOKED PRODUCT

Charoen Pokphand Foods (CP Foods), one of the world's leading food companies, has launched its popular CP Authentic Asia duck meal range in New Zealand.

Freshly roasted and seasoned with a traditional blend of Chinese spices, the frozen products were launched after research revealed a distinct gap in the New Zealand market for convenient, great tasting, value-added duck that is available all year round.

The premium cooked duck products, which include a Peking Style Aromatic Crispy Duck Pancake Kit, Peking Style Aromatic Roasted Half Duck and Peking Style Slow Cooked Duck Legs will be available in all Foodstuffs North Island stores.

Andrew Turner, CP Foods Retail Manager for Australia, New Zealand and the Pacific Islands, said:

"New Zealand consumers are becoming a lot more adventurous, partly driven by the popularity of cooking shows, and there has been a growing interest in duck. However, until now, supply in New Zealand has simply not been able to meet demand. Many Kiwi consumers are also unsure about how to cook and prepare duck at home. The enthusiasm is there but people can find the idea of preparing a whole, uncooked duck from scratch

a bit intimidating.

"We have developed the CP Authentic Asia duck products to make preparing duck as easy and appealing as possible. Home cooks will now be able to experience the recipes and dishes that they had previously only been able to enjoy in restaurants."

RRP for the Peking Style Aromatic Crispy Duck Pancake Kit (550g) is \$27.99. RRP for both the Peking Style Aromatic Roasted Half Duck (300g) and Peking Style Slow Cooked Duck Legs is \$18.99 (250g, two pieces).

Each product can be ready in 3-5 minutes and can be prepared in the oven, pan or microwave. The duck is extremely versatile and can replace any other protein to add life to a meal. Pasta dishes, salads, tacos, soups and traditional Asian recipes are just a few easy but delicious options.

The CP Authentic Asia brand is owned by Charoen Pokphand Foods in Thailand, one of the world's largest and most successful food companies. CP Foods operates in 16 countries and exports products from Thailand to over 30 countries, reaching more than 4 billion people. CP Foods is the first company (and Thailand the first country) approved by MPI to import fully cooked duck into New Zealand.

For more information and to keep up to date with product news, visit [facebook.com/CPAuthenticAsiaNZ](https://facebook.com/CPAuthenticAsiaNZ).

## PHELAN'S LOCAL BOARD UPDATE

During last year's Local Board plan consultation, we floated the idea of a local targeted rate for transport projects that residents told us were important. 52% of submitters wanted to see a detailed proposal. Now we want your feedback on whether we proceed with this.

The Rodney Local Board Targeted Transport Rate (or RLBTTT for those who like clever acronyms) would see an annual targeted rate of \$150 per rateable property (\$2.90 per week) that would bring forward investment in transport infrastructure over the next 10 years. In the Kumeu Subdivision of the Rodney Ward (Kaukapakapa to Taupaki) the \$21 million programme would include; a new bus service from Riverhead to Westgate and additional buses from Huapai to Westgate starting in 2019; a Huapai Park'n'Ride; additional road sealing and footpaths.

Here are some of the concerns I have heard and responses to those;

"We already pay rates, why aren't these things covered by my rates already?"

The targeted rate is about bringing forward investment. Many of these things will happen eventually; Auckland Transport is proposing a bus service in Riverhead from 2021 and there is a road sealing and footpath program but it is not keeping pace with demand. Auckland Transport has a \$7 billion shortfall in its 30-year budget (Regional Land Transport Plan - RLTP) for current priorities, however even with the proposed fuel tax there is still not enough money. Accelerating investment will see proj-

ects related to our proposals brought forward in future years. This will help us keep up with growth.

“Rodney already pays its fair share in rates and we don’t get all our rates spent in Rodney”;

This is a common sentiment, everyone in Auckland thinks their rates are spent everywhere but their districts – obviously that can’t be true. We live in a large Ward, 48% of Auckland, with a lot of infrastructure like roads supporting a very small population of 64,000, that’s half the number of people in the Waitemata Ward, one of Auckland smallest Wards. Because we are growing hundreds of millions of dollars of infrastructure is pouring into Rodney. I have been involved in work to see if our Local Board portion of rates could be separately stated on our rates notices in Rodney, that work demonstrated the level of cross subsidisation from the rest of Auckland into Rodney, we actually get more back than we contribute.

“How will I know the money will be spent in Rodney”;

The Local Government Act 2002 requires that Targeted Rates must be spent in the area they are collected for the purpose they were collected for. We had to prepare a detailed proposal (35 pages) of what the Local Board would do with this rate. By Law this money must be spent in Rodney on transport projects otherwise it has to be returned to ratepayers.

“I don’t use the bus because of where I live, why would I support this?”

A valid point, however as our population grows so will the traffic, getting people onto public transport removes cars from the roads, this has a wider benefit for everyone e.g. businesses who have to move goods around. Developing public transport is the long-term solution to getting people around Auckland.

“The bus takes just a long or longer than driving, why wouldn’t I just use my car?”

As the North West grows traffic congestion will worsen. While growth in Huapai and Riverhead will level off up to 2028 in Redhills, Whenuapai and Hobsonville there are over 10,000 properties being developed now, this plus the improvement to SH18 to channel traffic from SH1 onto SH16 and the tunnel will increase traffic on SH16 from Westgate. The development of bus lanes on SH16 will speed up the bus service while the traffic grows.

There are pros and cons for the proposed targeted rate. I understand the difficulty faced by people on fixed incomes when hit with rates increases and no one likes paying more tax. The Local Board has worked to find a solution to growth pressures and calls for more investment in transport infrastructure. We can wait in line with every other part of Auckland, all of which faces the same problems, or we can pay a bit more now to bring forward the investment to deal with Rodney’s transport woes.

Public consultation runs from the 28th February to 28th March, you can do this online at ‘akhaveyoursay.nz’ paper forms will be at local libraries and service centres or on Facebook at #akhaveyoursay.

The details of the transport targeted rate they will be online as part of the Local Board 10 year’s budget proposals or you can email me and I can send you the information.

If you need assistance with council related matters, please call me on 021 837 167 or email phelan.pirrie@aucklandcouncil.govt.nz.

@ westgate@youtravel.co.nz

ensure that you are maximising your tax deductions. It is important to review your debtors and physically write off any bad debts in your accounting system prior to close of business on 31 March in order to claim a tax deduction. On 31 March you should count and reconcile any petty cash and make sure you have entered your petty cash expenses into your accounting software, which allows your accountant to claim a deduction for tax and make adjustments for GST that may not have been claimed during the year. It is also a great idea to set some time aside on 31 March to count any stock you have (especially live-stock), because if your stock count is not correct you could be paying more tax than you should.

For more advice on getting organised for the financial year end and tips for minimising your tax, contact Mark Foster and the UHY Haines Norton team at 329A Main Road, Kumeu, on 09 412 9853 or email [kumeu@uhyhn.co.nz](mailto:kumeu@uhyhn.co.nz).

## SOCIALISATION BEGINS AT HOME – NOT AT PRESCHOOL

Here at Country Bears we often get parents saying such things as "I want to bring my child here to learn how to socialise", or "does my child play with anyone?"

Children learn how to socialise from the moment they are born. Through all the stages of development, their very first awareness and learning of socialising at home will determine how the child interacts with their peers.

They learn that through the interactions that they have at home with their parents, siblings and relations, children are learning how to communicate, negotiate, compromise and even learning about the subtle signs of body language. All these lead to socialising when they engage with the community or their peers.

When it comes to children 'playing' with other children, there is a developmental process that children will go through to reach the stage where they are engaging and interacting with their peers. The stages start at independent play where a baby or toddler will be happy to play by themselves. Then you may see a toddler start playing alongside another child, not necessarily 'engaging' with each other, but still working alongside, maybe swapping toys or equipment; we call this parallel play. Through this stage of play, the young child will eventually start to engage in co-operative play with one of their peers.

As subtle as these changes may be, our teachers are very aware of each individual child and where they are at with their development. We do not place age as the predetermined factor of where they 'should' be at, but where the child is at for the child. With over 20 years' experience as preschool educators and carers within our community, we are proud to provide the Country Bears children an educational programme with a difference. We provide specific, intentionally designed areas for child development, in a rural and natural setting, alongside our educational Elements of Life programme. As in the past, all our children are well received in the local schools as being confident and knowledgeable children, with the lifelong tools to take on their next journey through life.

Please feel free to come and have a look at our beautifully placed centre and our professional and caring team of teachers. Alternatively you can see what the children have been experiencing by visiting our Facebook Page: [www.facebook.com/cbearsecc](http://www.facebook.com/cbearsecc).

Remember adventuring everyday in a diverse natural environment, immersed in nature; playing confidently amongst the trees, paddocks, vege gardens & treehuts?  
*..It IS all still possible for your child at Country Bears*
